LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Alta Vista Innovation High School

CDS Code: 36-75051-0136432

School Year: 2024-25

LEA contact information:

Ken Larson

Principal

klarson@innovationhigh.org

(760) 203-4846

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

Projected Revenue by Fund Source

DRAFT

Total LCFF funds
$0
0 %

This chart shows the total general purpose revenue Alta Vista Innovation High School expects to receive in the coming year from all sources.
The text description for the above chart is as follows: The total revenue projected for Alta Vista Innovation High School is $0, of which $ is Local Control Funding Formula (LCFF), $ is other state funds, $ is local

funds, and $ is federal funds. Of the $ in LCFF Funds, $ is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

DRAFT

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

Budgeted Expenditures in the LCAP

This chart provides a quick summary of how much Alta Vista Innovation High School plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Alta Vista Innovation High School plans to spend $ for the 2024-25 school year. Of that amount, $ is tied to actions/services in the LCAP and $ is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Our independent study program implements a personalized learning experience for all students, including English learners, LTELs, low-income, foster youth, and special education students that is carefully designed to address their unique academic and social-emotional needs. To serve our At-Promise and highly mobile population, expenditures are budgeted for, but not limited to, teacher and staff salaries and benefits, student interventions, curriculum development, professional development, materials, hardware, and software. Not included in the LCAP are the following:

- Audit fees
- Legal expenses
- Association fees
- Special Education expenditures
- Mandated Block expenditures
- Ancillary Grants
- A-G Completion Improvement Grant Program expenditures
- Educator Effectiveness Grant expenditures
- Arts, Music, & Instructional Material Block Grant
- Learning Recovery Emergency Block Grant
- Expanded Learning Opportunities Grant Federal expenditure
- California Community Schools Partnership Program

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Alta Vista Innovation High School is projecting it will receive $ based on the enrollment of foster youth, English learner, and low-income students. Alta Vista Innovation High School must describe how it intends to increase or improve services for high needs students in the LCAP. Alta Vista Innovation High School plans to spend $ towards meeting this requirement, as described in the LCAP.

DRAFT

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2023-24

Prior Year Expenditures: Increased or Improved Services for High
Needs Students

☐ Total Budgeted Expenditures for
High Needs Students in the
LCAP

☐ Actual Expenditures for High
Needs Students in LCAP

$ 0 $ 0 $ 0 $ 1 $ 1 $ 1 $ 1
This chart compares what Alta Vista Innovation High School budgeted last year in the LCAP for actions
and services that contribute to increasing or improving services for high needs students with what Alta
Vista Innovation High School estimates it has spent on actions and services that contribute to increasing
or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Alta Vista Innovation High School's LCAP
budgeted $ for planned actions to increase or improve services for high needs students. Alta Vista
Innovation High School actually spent $ for actions to increase or improve services for high needs
students in 2023-24.

2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

Goals and Actions

Goal

Goal #	Description
1	Increase Academic Progress: This is a focus goal for increasing academic progress for all students, especially our English Language Learners, low-income, and foster youth, who struggled during the previous year. In the next three years, we will have mitigated the negative impact learning loss had on our students, and we will see improvement in our NWEA, EL reclassification, credit completion and graduation rates.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Alta Vista Innovation High School (AVIHS) used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal One supported the progress in meeting the following goal: Increase academic progress.

Action 1.1: English Learners support staff, interventions, and materials.
Implementation Status: 4 - Full Implementation
AVIHS employs Spanish-speaking English Learner (EL) paraprofessionals who support all teachers through individual and small-group instruction (SGI) in ELA and Math. Additionally, to help make linguistic progress toward proficiency, we create and share with every EL student and their supervising teacher an Individualized English Learner Development Plan (IELDP). The IELDP helps students and teachers track participation in our Designated and Integrated English Language program. No substantive difference in the planned action compared to the actual implementation.

Actions 1.2: All academic interventions and program materials.
Implementation Status: 4 - Full Implementation
Alta Vista Innovation High School (AVIHS) has implemented an intervention program for students needing additional support in English Literacy and Mathematics. These intervention supports in English and Math are offered both individually via tutoring and also in small groups via Small Group Instruction (SGI). We utilize Read180 and Algebra Intensive as two course offerings for students who desire a scaffolded opportunity to access Content Standards with additional academic support. No substantive difference in the planned action compared to the actual implementation.

Action 1.3: Tutoring and supports for students.
Implementation Status: 4 - Full Implementation
Following our Comprehensive Support and Improvement Plan, we have increased participation in tutoring. Our collaborative CSI Team meets every learning period to provide leadership for the implementation and monitoring of the CSI Plan. Participants in the CSI Team include representatives from our tutoring team who review data, as well as monitor and support data tracking in alignment with our CSI Plan. The team developed a SMART goal to increase participation in tutoring by 50% this year and we have exceeded that through Learning Period 7 (LP7). No substantive difference in the planned action compared to the actual implementation.

Action 1.4: Counseling students towards graduation and materials.
Implementation Status: 4 - Full Implementation
Our counselors are in constant contact with students beginning in 9th grade and providing guidance until they graduate as 12th graders. We employ 11 counselors who serve our students. Counselors work alongside the school registrar and supervising teacher to ensure appropriate course placement and course mapping. Counselors also assist additional staff members such as Student Retention Support (SRS) and our Parent Engagement Liaison to coordinate additional services such as social-emotional support, acute housing needs, and mental health referrals. The goal is to ensure that all students, including our unduplicated populations, have adequate and supportive wrap-around services in their times of need. No substantive difference in the planned action compared to the actual implementation.

Action 1.5: Student activities that increase learning efforts.

Implementation Status: 4 - Full Implementation
Our incentive program provides recognition for students who are making progress toward earning 4.0 credits or more during a specific learning period. For example, we provided incentive lunches, snacks, field trips and other awards for students who made academic progress this school year. No substantive difference in the planned action compared to the actual implementation.

Action 1.6: Teachers and staff are qualified and appropriately assigned.
Implementation Status: 4 - Full Implementation
We strive to hire fully credentialed teachers and we monitor their teaching assignments to ensure that there are no mis-assignments each year. New teachers are assigned a mentor who works with them throughout the year providing support and guidance. No substantive difference in the planned action compared to the actual implementation.

Action 1.7: Title 1 - Intervention programs and personnel to support students.
Implementation Status: 4 - Full Implementation
Title I staff foster students' literacy through the implementation of an "English Intensive" curriculum via Read180 literacy support classes. Students also receive individual and small-group instruction (SGI) support via tutors and credentialed teachers to support their academic writing tasks, utilizing writing strategies to scaffold Content Standards, and also receive personalized feedback. No substantive difference in the planned action compared to the actual implementation.

Action 1.8: Professional Development for English Learners.
Implementation Status: 4 - Full Implementation
Our school's EL department sent teachers, tutors, and administrators to the annual California Association for Bilingual Education (CABE) conference. The team also convenes regularly for internal staff development with the support of our English Learner Learning Center Coordinator (EL LCC). The EL LCC supports the EL program through annual and periodic training on ELAC compliance, instructional differentiation and support strategies such as SDAIE throughout the school year. No substantive difference in the planned action compared to the actual implementation.

Overall Successes: Alta Vista Innovation High School was able to implement the actions in this goal and there were no substantive differences in planned actions and actual implementation of these actions. Our school was able to provide a rigorous academic program to students with strong built-in intervention supports and strategies for all students. This is one of the greatest strengths of our individualized instruction model. Education and education support staff received targeted training in Professional Learning Communities (PLC), literacy acquisition and intervention across subject matter content, and regular updates on curriculum changes. We utilize many different academic intervention strategies, ranging from curriculum (Read180, System44, differentiated curriculum instruction) to personalized tutoring and instructional support (via individual tutoring and small-group instruction).

Overall Challenges: Alta Vista Innovation High School experienced some challenges this past year. Charter school enrollment increased teacher rosters at some learning centers which necessitated hiring additional teachers and support staff. Some of those positions took time to fill and during the interim we utilized our teams of teachers, tutors and paraprofessionals to close gaps and support students. We also identified priorities for our Comprehensive School Improvement and Differentiated Assistance statuses with staff members across the breadth of our program assisting in a collaborative process to identify needs and create measurable goals for improving student outcomes.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services; because actual expenditures were approximately the same as budgeted expenditures and principally directed towards our English Language Learners, low-income and foster youth students. We were able to meet our budgeted expenditures as shown in the 2023-2024 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds. The Title 1 funds, which were used to support actions in Action 1.7 for interventions, were also fully expended.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Two helped make progress towards the LEA's goal: To support the progress in meeting the goal to improve student academic achievement.

Action 1.1: English Learners support staff, interventions, and materials.
Effectiveness of Action: 2 - Somewhat Effective
Metrics: English Learner Progress Indicator and Reclassification Rate
Analysis Statement: As noted in the metric section above, our ELPI status was 36.6% with slight growth and our reclassification rate (7%) did not increase over last year but increased 3% over year 1 of our LCAP . In our collaborative needs assessment, we determined that the EDGE curriculum was being implemented, but it is still relatively new. We believe that additional professional development would help with implementation and increase scores. Additionally, we believe there is a correlation between quality professionals interacting with students and their success. We believe that additional professional development for our EL paraprofessionals and expansion of SGI class offerings will support student learning and this adjustment will improve the English Learner's progress. Because of the feedback from teachers, we will continue this action into the new three-year cycle with some changes to the design (see prompt 4).

Action 1.2: All academic interventions and program materials.
Effectiveness of Action: 2 - Somewhat Effective
Metric: NWEA MAP
Analysis Statement: As noted in the metric section above, our NWEA scores demonstrated mixed results. NWEA Reading scores decreased in all categories with the ALL group decreasing by 19.55 points, English Learners decreased by 12.47, Foster Youth decreased by 273.56, socioeconomically disadvantaged decreased by 19.74, and students with disabilities decreased by 20.51. NWEA Math scores increased in

the ALL group by 4.54, English Learners decreased by 53.79, foster youth decreased by 277.50, socioeconomically disadvantaged decreased by 5.55, and students with disabilities increased by 11.81. These mixed results are due in part to the large amount of student enrollments this year. AVIHS enrollment grew over 600 students this school year with a P2 ADA increase of 298 students. Our Differentiated Assistance team met and they completed a fish bone protocol as part of a data review and analysis professional development, during which it was identified that our Socio-Economically Disadvantaged (SED) students were falling behind their grade level peers. As a result, the team created a SMART goal to focus on the timely assessment of SED students so that we can address their academic needs more acutely. We also plan to use the results of our NWEA assessments to more recommend placement of students in intervention courses such as Read180 and Algebra Intensive. Because of the feedback from teachers, we will continue this action into the new three-year cycle with some changes to the design (see prompt 4).

Action 1.3: Tutoring and supports for students.
Effectiveness of Action: 2 - Somewhat Effective
Metric: Credit Completion Rate
Analysis Statement: As noted in the metric section above, our credit completion shows that AVIHS students complete, on average, 2.6 credits per learning period. Our goal was 4.0 credits per learning period for all subgroups. While none of the subgroups achieved that goal, all of our subgroups improved. The ALL group increased from 1.96 to 2.6, EL increased from 1.81 to 2.54, Foster Youth increased from 1.68 to 2.69, SED increased from 1.99 to 2.76, and Students with Disabilities increased from 1.86 to 2.69. Part of the increase this year was due to our CSI plan wherein we focused on more intensive tutoring options both individually and via small group instruction. The CSI team met to review data and they wrote a SMART goal for increasing student participation in tutoring by 50% versus prior year. An example of increased access to tutoring was seen in our tracking data where the following month after our team created the smart goal, the number of student tutoring sessions increased from 969 to 1,795, an increase of 826 student-attended sessions. The data from our CSI team is shared with school leadership and the data is compared against credit completion and graduation rates to backtest the SMART goal against student achievement throughout the school year. Because of the feedback from teachers, we will continue this action into the new three-year cycle with some changes to the design (see prompt 4).

Action 1.4: Counseling students towards graduation and materials.
Effectiveness of Action: 2 - Somewhat Effective
Metric: DASS 1-Year Graduation Rate
Analysis Statement: As noted in the metric section above, our one-year graduation rate shows that all student groups increased from our baseline of 75.13%. We met our targets for the DASS 1-year cohort graduation rate and our percentage meets or exceeds the California graduation rate. The federal government recently revised the reporting structure for graduation rates and no longer recognizes our 1-year cohort graduation rate, instead requiring we report our 4-year cohort graduation rates. Our 4-year cohort rate falls below the federal graduation guidelines due to our program model. As a credit recovery school, AVIHS students typically enroll with significant deficiencies not just in academic exposure but also in their credits completed toward graduation. Most students are behind their grade-level peers and are often 1.5 or more years behind where they should be in their studies. Many of our students enrolled at AVIHS as a third or fourth-year high school student often times with first- or second-year credits earned toward graduation. As a DASS school, we track both the 1-year and 4-year cohort graduation rate and have historically used our 1-year rate as a measure of our program's success in supporting students over the finish line to graduation. Our hope is that the federal government will recognize both rates as a measure of our academic efficacy with students. The graduation rate was also a focus of our CSI team's discussion on how best to quickly bring students back within their grade

level cohort. We chose tutoring because it leads to multiple avenues of academic growth, such as credit completion and content mastery. Because of the feedback from teachers, we will continue this action into the new three-year cycle with some changes to the design (see prompt 4).

Action 1.5: Student activities that increase learning efforts.
Effectiveness of Action: 2 - Somewhat Effective
Metric: Credit Completion Rate
Analysis Statement: As noted in the metric section above, our credit completion rate shows an average credit completion rate of 2.6 credits per learning period for all students. Our goal is 4.0 credits per learning period for all students, including our unduplicated student groups. This action primarily focuses on implementing a strong school culture that is rich with opportunities for students to engage in fun ways. We use funding in this action to support academic field trips to museums, colleges, and enrichment activities. Students are offered multiple opportunities to participate in reward trips and school events related to credit completion, graduation, spirit week, counselor events, and academic achievement. Each year, the school hosts at least one Experiential Learning field trip such as a trip to Washington DC. The Experiential Learning trips are paired with college tours and other academically-rich or historically-rich locations. Because of the feedback from teachers, we will continue this action into the new three-year cycle with some changes to the design (see prompt 4).

Action 1.6: Teachers and staff are qualified and appropriately assigned.
Effectiveness of Action: 3 - Effective
Metric: Highly Qualified with Full Teaching Credential
Analysis Statement: As noted in the metric section above, our teachers are highly qualified and appropriately assigned. Currently, 98% of our instructional staff are highly qualified and appropriately assigned. We strive to hire fully credentialed teachers and we monitor their assignments to be sure that there are no mis-assignments each year. New teachers are assigned a mentor teacher who works with them throughout the year providing support and guidance. No substantive difference in the planned action compared to the actual implementation.

Action 1.7: Title 1 - Intervention programs and personnel to support students.
Effectiveness of Action: 2 - Somewhat Effective
Metric: NWEA
Analysis Statement: AVIHS is a schoolwide Title I school. We provide an array of academic support opportunities for students who fall within the academic bands of support. As noted in the metric section above, our NWEA Reading scores reflect a goal of 1115 Lexile and our students averaged 943.95 this year versus 944.30 prior year which is a 0.35 point decrease. NWEA Math scores reflect a goal of 815 Quantile points and our students averaged 759.77 versus 723.47 which was a 36.3 point increase. Both measurements fell short of our goals this year. To support students who qualify for support based on low performance in Reading or Mathematics, AVIHS offers small group instruction instruction classes, individualized and small group tutoring sessions, remote tutoring sessions for students with transportation difficulties. This year, our Differentiated Instruction team identified that regular NWEA testing would improve our ability to identify students for intervention. We utilized Title I funding to expand tutoring for our students and also by literacy support with a credentialed teacher. The goal is to increase support for students which will improve Lexile and Quantile growth in NWEA and the associated state tests such as CAASPP and ELPAC. Because of the feedback from teachers, we will continue this action into the new three-year cycle with some changes to the design (see prompt 4).

Action 1.8: Professional Development for English Learners.
Effectiveness of Action: 2 - Somewhat Effective
Metric: English Learner Progress Indicator
Analysis Statement: As noted in the metric section above, our ELPI is reflected as Yellow on the dashboard indicator. AVIHS employs an English Learner Learning Center Coordinator (EL LCC) whose job is to support EL students, EL instructional staff, and EL paraprofessionals through professional development, data collection, and program analysis throughout the school year. The EL LCC supports the school through coordination of the English Learner Advisory Council (ELAC), ensures that timelines are met and that meetings follow approved guidelines. The EL LCC also coordinates annual participation in the California Association for Bilingual Education (CABE) conference with attendance encouraged by both teachers, paraprofessionals, and school leadership. The support of this position has increased test scores year-on-year on the ELPAC for our English Learner students. Because of the feedback from teachers, we will continue this action into the new three-year cycle with some changes to the design (see prompt 4).

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action 1.1: English Learners support staff, interventions, and materials. This action did not have the intended outcome based on the associated metrics as described in prompt 3. Due to educational partner feedback from our ELAC and student feedback, we will continue to offer the action. Based on a collaborative evaluation and professional needs assessment of the current action, we identified that the reason for the ineffectiveness of this action was due to a lack of high-quality support in the classroom. We will adjust the design of the action to ensure that English Language learners experience increased success in the upcoming three-year LCAP cycle. This change includes additional training on the timeline for EL reclassification so that course assignments, prep classes, instructional support, and ELPAC prep classes align with the ELPAC test windows. We will also include an EL paraprofessional in SGI classes to ensure that English Learners have quality trained support in their program.

Action 1.2: All academic interventions and program materials. This action did not have the intended outcome based on the associated metrics as described in prompt 3. Due to educational partner feedback from our PAC and ELAC along with student feedback, we will continue to offer the action. Based on a collaborative evaluation and professional needs assessment of the current action, we identified contributing factors to the limiting effectiveness of this action to be a lack of targeted intervention strategies and high-quality support in the classroom. We will adjust the design of the action to ensure that students needing intervention experience increased success in the upcoming three-year LCAP cycle. This change includes increased and targeted tutoring, use of Read180/System44 and other intervention curriculums, professional development of staff, and tutor and paraprofessional push-in support in SGI classes to ensure students have quality instructional support in their program. We also plan to adopt a twice-annual NWEA testing cycle for all students to more effectively identify students that are in need of targeted intervention.

Action 1.3: Tutoring and supports for students. This action did not have the intended outcome based on the associated metrics as described in prompt 3. Due to educational partner feedback from our ELAC and student feedback, we will continue to offer the action. Based on a collaborative evaluation and needs assessment of the current action, we identified that the reason for the low effectiveness of this action was

due to too few students participating in tutoring to raise the average credit completion of the ALL student group to 4.0 credits per learning period. We did increase the number of student sessions but too few students participate regularly in individual or SGI tutoring opportunities. We know that students who participate in tutoring earn 1-3 more credits than those who don't during a learning period. We will adjust the design of the action to ensure that more students participate in tutoring which will increase their credit completion in the upcoming three-year cycle. This change could include hiring additional tutors if necessary.

Action 1.4: Counseling students towards graduation and materials. Although there has been meaningful progress made, this action did not have the intended outcome based on the associated metrics as described in prompt 3. Based on educational partner feedback from our PAC and ELAC along with student and staff feedback, we will continue to offer the action. Based on a collaborative evaluation and professional needs assessment of the current action, we identified contributing factors to the limited effectiveness of this action to be a lack of structured intervention and tutoring assignment as well as inadequate monitoring of course articulation. We will adjust the design of the action to ensure that course articulation for each student is reviewed to ensure prioritization of core credits and appropriate academic interventions are assigned to increase success in the upcoming three-year LCAP cycle. This change includes increased and targeted tutoring, review of academic plans to ensure course articulation for core credits, assignment of academic interventions, and progress monitoring of the goal and action. Additionally, we will track student progress in both the 1-year cohort and 4-year cohorts to identify students that may re-enter their cohort with additional academic support.

Action 1.5: Student activities that increase learning efforts. This action did not have the intended outcome based on the associated metrics as described in prompt 3. Due to educational partner feedback from our ELAC and student feedback, we will continue to offer the action. Based on a collaborative evaluation and needs assessment of the current action, we identified that the reason for the low effectiveness of this action was due to too a weak link between enrichment activities and increased credit completion. We know that we need to learn more about what inspires students to earn 4 credits each learning period. We will adjust the design of the action to ensure that we realize an increase in credit completion in the upcoming three-year cycle. This change could include more carefully monitoring the effectiveness of the strategies in this action, sharing best practices, and offering additional opportunities for students to interact positively around the curriculum both at the school and through enrichment opportunities such as Experiential Learning.

Action 1.7: Title 1 - Intervention programs and personnel to support students. Although there has been meaningful progress made, this action did not have the intended outcome based on the associated metrics as described in prompt 3. Based on educational partner feedback from our PAC and ELAC along with student and staff feedback, we will continue to offer the action. Based on a collaborative evaluation and professional needs assessment of the current action, we identified contributing factors to the limited effectiveness of this action to be a lack of structured intervention and tutoring assignment, and challenges to attendance and scheduling of benchmark testing. We will adjust the design of the action to ensure enhanced individualized support for each student to increase success for this goal in the upcoming three-year LCAP cycle. Through our Differentiated Assistance process, we aim to ensure deliberate and effective layers of academic intervention such as SGI classes, intervention curriculum and targeted high-dose tutoring are applied with fidelity to our struggling students to improve Lexile and Quantile growth, as well as credit completion and academic performance on statewide assessments such as CAASPP and ELPAC. Lastly, we plan to adopt a twice-annual NWEA assessment window so all students will be assessed and then evaluated for academic support and intervention.

Action 1.8: Professional Development for English Learners. Although there has been meaningful progress made, this action did not have the intended outcome based on the associated metrics as described in prompt 3. Based on educational partner feedback from our PAC and ELAC along with student and staff feedback, we will continue to offer the action. Based on a collaborative evaluation and professional needs assessment of the current action, we identified contributing factors to the limited effectiveness of this action to be a lack of targeted and specialized training on effective English Learner instructional practice, and inadequate progress monitoring. We will adjust the design of the action to ensure focused collaboration and professional learning centered around systematic support for English Learners. A deliberate approach using the Professional Learning Communities model and data-driven decision-making to incorporate research-based instructional strategies for scaffolding learning and assignment of interventions will promote academic progress for our English Learners will be implemented by our EL LCC and EL Lead Teachers. The EL LCC will also conduct professional development on timelines and best practices for supporting student preparation for the ELPAC and reclassification windows and criteria.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

DRAFT

Goals and Actions

Goal

Goal #	Description
2	Students Will Gain Skills for College and Career-Readiness: This is a broad goal for helping students gain skills for college and career-readiness for all students, including low-income, English learners, and foster youth students.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Two supported the progress in meeting the following goal: Students Will Gain Skills for College and Career-Readiness.

Action 2.1: Career and college-readiness for English Learners, low income, and foster youth students.

Implementation Status: 5 - Full Implementation and Sustainability

AVIHS is a Workforce Innovation and Opportunity Act (WIOA) school that provides workforce readiness, college preparatory and dual enrollment opportunities, and Career Technical Education (CTE) pathways for students. The school has identified partnerships that support the goal of providing a K-16 pipeline for students that lead to not just graduation but also post-secondary opportunities beyond high school.

All Alta Vista students complete a workforce readiness course that helps students explore careers of interest, prepare them for interviews, and enhance skills in areas of job research and employability. The WIOA partnerships allow us to serve students beyond the typical age of a high school student, up to age 24. We provide dual enrollment course opportunities to all students both for credit recovery on their high school transcript and also for college articulation after graduation. These courses are provided at no cost to students with any fees being paid by the school. Some of our partners include Chaffey College, San Bernardino City College, Riverside Community College, and East Los Angeles College. Course offerings range from history to English and even some elective credits such as counseling classes where students learn about basic writing skills, reading transcripts and course catalog offerings in their major of preference.

No substantive difference in the planned action compared to the actual implementation.

Action 2.2: Professional development addressing English Learners, low income, and foster youth students.

Implementation Status: 5 - Full Implementation and Sustainability

All staff participate in regular training and professional development opportunities throughout the school year. Training and professional development centers around instructional competency, instructional strategies, social-emotional learning, resiliency, and the needs of special populations. Professional development is conducted both in-house by specialized staff such as Special Education Program Specialists,

English Learner LCC, counselors and outwardly by attendance at conferences, webinars, and other professional learning opportunities. No substantive difference in the planned action compared to the actual implementation.

Action 2.3: Technology Access and Support.
Implementation Status: 5 - Full Implementation and Sustainability
AVIHS has invested heavily in technology infrastructure and device management to increase support for students in need of technology to access their education. The school has purchased Chromebooks for students to use when completing work remotely. We also have provided WiFi hotspots to students in need of access to internet connectivity. The school also purchases licenses and software to increase access to school work remotely and at school. We purchase additional technology as needed throughout the school year and based on student needs so that students have full access to their schoolwork both at school and at home. Technology is placed on a regular refreshment cycle to ensure that it is up-to-date and current with 21st-century technology standards. No substantive difference in the planned action compared to the actual implementation.

Action 2.4: Support for Standards-based Curriculum and Instruction
Implementation Status: 5 - Full Implementation and Sustainability
This year we improved the quality of standards-based curriculum by creating Professional Learning Communities within our school. We continued to partner with Riverside County Office of Education (RCOE) to support the professional development of our recently credentialed teachers. Tutors and paraprofessionals began participating in a tutor PLC to address the CSI Plan, review data, and best practices for student support. The tutor PLC team also crafted a SMART goal for increasing tutor participation by students. No substantive difference in the planned action compared to the actual implementation.

Action 2.5: Educational materials for an effective program.
Implementation Status: 5 - Full Implementation and Sustainability
We are constantly monitoring our materials to ensure that teachers, students, and site leadership have the materials necessary to implement a comprehensive academic program for students. Examples of these materials include intervention curriculum, curriculum formatted for remote or distance learning, and appropriate technology infrastructure. Curriculum is updated regularly and is available to every staff to use with students. Accompanying text and supplemental materials are available online for students to use as-needed. Teachers keep an array of other educational materials and manipulatives to support reading & writing programs. No students are lacking materials. No substantive difference in the planned action compared to the actual implementation.

Action 2.6: Safe and Secure Facilities
Implementation Status: 5 - Full Implementation and Sustainability
Safe and secure facilities are the top priority of school leadership. We conduct annual facility inspections using our Facility Inspection Tool (FIT) and report the findings of these inspections to school leadership and the school board. We utilize the support of our Director of Safety and Security to assess the safety of our security procedures annually. Each resource center conducts monthly safety checks to ensure compliance with the school's safety protocols. Additionally, all staff are required to complete annual training modules on safety and security. No substantive difference in the planned action compared to the actual implementation.

Overall Successes: Our school experiences many successes in Goal 2 this year. We employ a broad spectrum of employees that bring passion and care to the learning centers. This has resulted in a near zero suspension rate, a zero expulsion rate, increases in student attendance and enrollment, increased credit completion and increased participation in CTE and college dual-enrollment opportunities. We have a safe and inclusive learning environment for all students with an individualized approach to learning wherein the student has multiple opportunities to work with both certificated teachers one-on-one and also in small group or individualized tutoring. We have expanded our CTE and dual-enrollment opportunities while encouraging students to strive for a post-secondary opportunity whether it be a career or a college-bound direction.

Overall Challenges: Our school still experienced challenges this year in Goal 2 implementation. We continue to see student performance on the CAASPP below our targeted goals, too few students are completing a CTE pathway compared to our target, and A-G completion lags below our course completion target. Our focus is on college-ready students and we anticipate our CCI indicator to improve over the next year as our efforts to increase participation in dual enrollment become realized in our graduating students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services; because actual expenditures were approximately the same as budgeted expenditures and principally directed towards our English Language Learners, low-income and foster youth students. We were able to meet our budgeted expenditures as shown in the 2023-2024 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Two supported the progress in meeting the following goal: Students Will Gain Skills for College and Career-Readiness.

Action 2.1: Career and college-readiness for English Learners, low income, and foster youth students.
Effectiveness of Action: 3 - Effective
Metrics: Work Readiness and CTE courses, CTE and A-G.
Analysis Statement: As noted in the metric section above, our Work Readiness and CTE data shows that the number of students completing a CTE course increased significantly over our three year LCAP cycle. We met our goal to increase participation in CTE and Workforce Readiness (Professional Skills) each year, with increases of 226 students in CTE participation and 470 students in Workforce Readiness

classes. We offer Workforce Readiness to all students at AVIHS encourages students to enroll in a CTE or dual-enrollment course with a partner community college. Dual enrollment courses also allow students to gain college credit that also applies toward their high school graduation requirements, helping to blur the line between high school and post-secondary education. Dual enrollment courses are offered in-person and remotely via partnerships with Victor Valley Community College, San Bernardino Valley Community College, Riverside Community College, Chaffey Community College, and East LA College. We have seen strong participation from all students, including our unduplicated student groups. Students that participate in dual enrollment are encouraged to work with their school counselor, supervising teachers and learning center tutoring teams for support in completing their coursework.

Action 2.2: Professional development addressing English Learners, low income and foster youth students.
Effectiveness of Action: 2 - Somewhat Effective
Metrics: CAASPP for English Language Arts and Math.
Analysis Statement: As noted in the metric section above, our CAASPP scores show decreased results in CAASPP Language Arts (declined 23 points and red indicator) and CAASPP Mathematics (declined 15.2 points and red indicator). Due to these declines, we did not meet our expected outcomes for this action. We have identified student performance on State tests as a key focus of our Differentiated Assistance team. Our DA team has convened and receives support from our local San Bernardion County Office of Education to assess key barriers to student success through a needs assessment and fishbone protocol. We believe that additional professional development centered on using NWEA as a tool to identify deficits in student knowledge will improve student performance over the next LCAP cycle. Because of the feedback from teachers, we will continue this action into the new three-year cycle with some changes to the design (see prompt 4).

Action 2.3: Technology Access and Support.
Effectiveness of Action: 3 - Effective
Metric: 100% of students offered Chromebook and hotspot upon enrollment.
Analysis Statement: Alta Vista Innovation High School has invested heavily in student technology throughout the duration of this LCAP cycle. Our students receive technology to support their education both at the school and at home. We have shared our progress toward meeting our LCAP goals throughout the school year and parents have shared that they are happy with the amount of technology made available to students for completing their work. While the purchase of technology has not directly correlated with success of students on the CAASPP, we have seen an increase in credit complete throughout the duration of this LCAP from 1.96 to 2.6 each Learning Period. The school has also expanded technology from computer carts to a near 1:1 implementation of Chromebooks for our students. We also ensure that student laptops are on-hand to be assigned to students as-needed.

Action 2.4: Support for Standards-based Curriculum and Instruction.
Effectiveness of Action: 2 - Somewhat Effective
Metric: CDE Standards Implementation Rubric.
Analysis Statement: As noted in the metric section above, our high-quality standards-based curriculum continues to be fully implemented for all students enrolled in our school. We annually assess our course offerings to ensure that students have a broad range of courses available. Our A-G completion rate continues to be below our target goal of 5% and we plan to continue this goal with some changes in our upcoming three-year cycle (see prompt 4).

Action 2.5: Educational materials for an effective program.

Effectiveness of Action: 3 - Effective
Metric: Regional Monitoring by Instructional Specialists
Analysis Statement: As noted in the metric section above, all of our sites have adequate materials and are constantly being monitored by school leadership, regional instructional specialist, and teachers. We continued to maintain our goal to provide 100% of our students with access to a broad range of courses. Our teachers are encouraged to share back not only their feedback on the curriculum but also students' feedback. Courses are available via the traditional paper packet method or via online course delivery using Google Classroom with submission being available to their teacher through electronic delivery to their teacher.

Action 2.6: Safe and Secure Facilities.
Effectiveness of Action: 3 - Effective
Metric: Facilities Inspection Tool (FIT)
Analysis Statement: As noted in the metric section above, our Facility Inspection Tool showed that all of the areas earned an exemplary rating. Our school employs a Director of School Safety and Security that helps ensure our School Safety Plan (SSP) is implemented with fidelity. We provide security at learning centers for the safety of students and staff. Our staff also complete monthly safety walkthroughs to ensure SSP compliance. This has translated into a high level of physical security at our school sites, as seen in our dashboard indicator of blue and 0.1% suspension rate.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The following actions did have the intended outcome based on the associated metrics as described in prompt 3. Due to educational partner feedback from our PAC/ELAC, staff and student feedback, we will continue to offer the action. Based on a collaborative evaluation of the current action, we believe these actions were effective:

Action 2.1: Career and college-readiness for English Learners, low income, and foster youth students.

Action 2.2: Professional development addressing English Learners, low income and foster youth students.
Our school's performance on Standardized Testing is juxtaposed to our increases in EL reclassification, credit completion, and graduation rate. During our first cycle of inquiry with AVIHS's Differentiated Assistance team and San Bernardion County Office of Education, we found that many students failed to take NWEA assessments regularly. Without adequate benchmark assessments, teachers were unable to target academic deficiencies in student content knowledge. This lack of participation in benchmark testing has a trickle-down effect in that students are not identified for specific areas of improvement. Our tutor PLC has found that increased tutoring opportunities does correlate with improved credit completion but we are not adequately preparing students for the state tests. We plan to improve our collaboration amongst teachers through PLCs to incorporate research-based strategies aimed at improving interventions and subsequent CAASPP performance bands.

Action 2.3: Technology Access and Support.

Action 2.4: Support for Standards-based Curriculum and Instruction.
Our school's performance on this action did not have the intended outcome of meeting our goal of 5% students graduating with A-G course completion. This has been shared with our educational partners and we plan to continue this action into the upcoming three year cycle. We plan to complete a needs assessment as part of our differentiated assistance to identify potential areas of improvement on this metric. With a more dedicated focus on A-G completion we believe that we will improve student outcomes.

Action 2.5: Educational materials for an effective program.

Action 2.6: Safe and Secure Facilities.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

DRAFT

Goals and Actions

Goal

Goal #	Description
3	Increase Student Retention: This is a maintenance goal for student retention. It is designed to continue the success we have had with addressing student disengagement from their schooling and supporting their decision to either rematriculate or graduate through our program. We have safe and welcoming facilities, with a positive school climate, which effectively encourages students to remain engaged in their schooling experience.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.
Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Three supported the progress in meeting the following goal: Increase Student Retention.

Action 3.1: Student Retention
Implementation Status: 5 - Full Implementation and Sustainability
Student retention is a key facet of our student support system at our school. We employ Student Retention Support (SRS) staff that are dedicated to identifying the barriers that students struggle with. Our SRS staff are empowered to find creative solutions to help encourage students to complete their high school journey. We provide wrap-around services to students via contracted support providers, counselors, and community partners. The SRS staff also conduct home visits to try and locate students that are not participating in their studies, and hold student re-engagement meetings with students and their parents. No substantive difference in the planned action compared to the actual implementation.

Action 3.2: Social and Emotional Supports
Implementation Status: 5 - Full Implementation and Sustainability
The school believes that social-emotional health of our students is tied to academic success. We have aimed to increase the number of school counselors available to students over this currently LCAP cycle. Students demonstrating strong growth in credit completion or improvement in their participation in the school are eligible to participate in Experiential Learning opportunities such as our annual trip to Washington, D.C. The school offers numerous social-emotional supports such as Paws-to-Share, which is a dog therapy program. Learning Centers also participate in a collaborative Trauma-Resilient Educational Communities (TREC) model that supports our students through implementation of ACES Science principles. We also utilize our LCAP funding to support students during school breaks by providing counselors on-call for acute interventions. No substantive difference in the planned action compared to the actual implementation.

Action 3.3: Access to Transportation
Implementation Status: 5 - Full Implementation and Sustainability

The school provides multiple opportunities to help students attend school. The school purchases bus passes that are given to students at no charge so that may attend school. Bus passes are given on both a daily and weekly basis depending on need. Students that demonstrate exceptional need during short-term lack of transportation have access to Hop, Skip, Drive for transportation to and from the school. No substantive difference in the planned action compared to the actual implementation.

Action 3.4: Access to Nutrition
Implementation Status: 5 - Full Implementation and Sustainability
Our school believes that it is not okay for students to attend school hungry. Throughout the duration of this three year LCAP cycle the school has increased the amount of funding available for students to access nutritional services. Some of our learning centers also provide free meals for students via EveryTable, a service that brings fresh and balanced nutrition meals for students to eat. No substantive difference in the planned action compared to the actual implementation.

Action 3.5: Title 1 – Helping Homeless
Implementation Status: 5 - Full Implementation and Sustainability
Our school provides services across a broad spectrum of need for students. This includes our homeless students or students that are experiencing an acute loss of housing. McKinney Vento training is conducted annually by our counselors to help our teachers identify students that may benefit from access to additional services from the community. Our counselors work with the School Liaisons (SL) to ensure that resources are available for these students who are undergoing periods of exceptional need. We provide free items for these students, such as hygiene and self-care items, clothing, and non-perishable food items. No substantive difference in the planned action compared to the actual implementation.

Overall Successes: Our school successfully implemented the actions in this goal without any substantial differences in Goal 3. Our Student Retention Rate increased year on year, attendance improved each year, and the dropout rate halved over the duration of this LCAP cycle. We have increased the availability of wrap-around services to students via both internal resources and external partnerships, hired additional staff to support this goal and utilized our existing staff in creative ways to improve student outcomes.

Overall Challenges: Our school continued to face challenges in implementing all of the actions in Goal 3. Students' social-emotional needs are greater than they have ever been and homelessness continues to increase not just in our student population but the greater society as a whole. While we have significantly improved our Goal 3 performance this is not reflected in student performance on Standardized Testing.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services; because actual expenditures were approximately the same as budgeted expenditures and principally directed towards our English Language Learners, low-income and foster youth students. We were able to meet our budgeted expenditures as shown in the 2023-2024

Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds. The Title 1 funds, which were used to support actions in Action 3.5 for homeless students, were also fully expended.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.
The actions outlined in Goal Three helped make progress towards the LEA's goal: To Increase Student Retention.

Action 3.1: Student Retention
Effectiveness of Action: 3 - Effective
Metric: Retention Rate
Analysis Statement: As noted in the metric section above, our retention rate data is 92.97% which is an increase of 8.47% from the first year of this LCAP cycle. It is also an increase of 2.82% over last year. We believe that higher student retention is correlated with higher student satisfaction with our program, graduation, and lifelong success. The comprehensive student support services provided by the school have shown strong improvement. Tiered re-engagement plans have supported the continued enrollment and academic progress of students. We continue to look for creative solutions to complex problems and utilize multiple communication pathways home for both students and parents. Home visits are also conducted to ensure that students don't just hear from us that we miss them but see us in person, as well. We plan to continue this action in the upcoming three year cycle.

Action 3.2: Social and Emotional Supports
Effectiveness of Action: 3 - Effective
Metric: Success Rate
Analysis Statement: As noted in the metric section above, our success rate shows that 96.21% of our students are successful. This measurement looks at the number of students that graduate, stay with our program, or rematriculate successfully back to their district school of residence. The student success rate for our school has improved from 91.5% in year 1 to 96.21% in year 3. Part of this is due to our significant investment in counselors, social-emotional supportive services, community resources, and creative solutions. For example, we maintain an on-call counselor presence through school breaks to address acute social-emotional events. Our school staff have been trained in trauma-informed best practices through our Trauma-Resilient Educational Communities (TREC) model. We have utilized LCAP funding to increase the offerings of elective programs and other positive school culture opportunities (such as eSports, field trips, school events, and awards ceremonies). Students that are parenting have supportive services and childcare items provided at no-cost through our Helping Our Parents in Education (HOPE) program. Through this program students receive free diapers, formula, clothes, and other items for their children.

Action 3.3: Access to Transportation
Effectiveness of Action: 3 - Effective
Metric: Attendance Rate

Analysis Statement: As noted in the metric section above, our attendance rate shows that the investment in free transportation for students has been a positive impact on our students. Our attendance rate has improved from 80.80% in year 1 to 85.27% in year 3. Our provision of free bus passes has been popular with students. For students demonstrating an acute lack of transportation we utilize Hop, Skip, Drive to bring students to school. These budget investments have been a net positive for student attendance and we plan to continue providing these services in the upcoming three year LCAP cycle.

Action 3.4: Access to Nutrition
Effectiveness of Action: 3 - Effective
Metric: Non-completer Rate
Analysis Statement: As noted in the metric section above, our non-completer rate shows a significant decrease in the number of students that dropped out of our program. The non-completer rate was 7.9% in year 1 and now stands at 3.66 in year 3. There are a number of reasons why we believe metric is a result of our increased nutritional supports for students. Many students continue to have food insecurity in their own homes and the provision of healthy and nutritious options at the school encourages them to attend school. Students also feel connected to the school through the care we provide in this action. An example of this budgetary investment in our students is through EveryTable, a service that brings pre-packaged meals to the schools that students may enjoy at no cost. We believe that our focus on nutrition will continue to positively impact student success at our school and we plan to continue this action.

Action 3.5: Title 1 – Helping Homeless
Effectiveness of Action: 3 - Effective
Metric: Percentage of Homeless Served
Analysis Statement: As noted in the metric section above, all of our homeless students were provided services this year. Annual staff trainings are held to help staff recognize the signs of homelessness and acute loss of stable housing. We have increased our connections with community partners to mitigate these events. The school also has on-hand free items for students that are experiencing these stressful events, such as hygiene items, clothing, non-perishable food, and other items. We plan to continue providing these services in the future as they have positively impacted our student experiencing housing instability.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The following actions did have the intended outcome based on the associated metrics as described in prompt 3. Due to educational partner feedback from our PAC/ELAC, staff and student feedback, we will continue to offer the action. Based on a collaborative evaluation of the current action, we believe these actions were effective:

Action: 3.1: Student Retention
Action 3.2: Social and Emotional Supports
Action 3.3: Access to Transportation
Action 3.4: Access to Nutrition

Action 3.5: Title 1 – Helping Homeless

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

DRAFT

Goals and Actions

Goal

Goal #	Description
4	Increase Educational Partner Engagement: This is a maintenance goal for increasing educational partner engagement. We believe in parent participation along with their student's academic progress and we believe in parents should be encouraged to participate in meaningful ways to promote positive school outcomes.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Our school used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of both input from educational partners and metrics.
Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Four supported the progress in meeting the following goal: Increase Educational Partner Engagement.
Action 4.1: Community/Parent Liaison and Meaningful School Activities
Implementation Status: 5 - Full Implementation and Sustainability
Our school believes that students are not successful if their parents do not support our program. We hold quarterly meetings of our Parent Advisory Council (PAC) and also our English Learner Advisory Committee (ELAC). Many other opportunities are held throughout the year to encourage parent participation in their student's school, such as awards ceremonies, Back to School Night, Open Houses, orientations at time of enrollment, workshops held by community partners, and workshops held by counselors (social-emotional, FAFSA, graduation, etc).
No substantive difference in the planned action compared to the actual implementation.

Action 4.2: Translation and Outreach Services
Implementation Status: 4 - Full Implementation
Many of our students' parents are non-native English Language speakers. To encourage participation in important school events and committees, such as the English Learner Advisory Committee and the Parent Advisory Committee we provide translation services. This is done through the attendance of bilingual staff that translate for those families in real-time. Feedback from those families is also recorded as part of our process. Additionally, materials sent home regarding upcoming school events and other important notices are translated to ensure communication pathways remain open with our families. Our LCAP and SARC reports are provided in both English and Spanish on the website and at the school site in paper format. No substantive difference in the planned action compared to the actual implementation.

Action 4.3: Educational Partner Engagement
Implementation Status: 5 - Full Implementation and Sustainability
Our school hosts multiple family events throughout the year to encourage parent involvement in their student's academic success. We utilize our School Liaisons and our Parent Engagement Liaison to hold community events that help connect our families to community resources.

The School Liaison is tasked with developing deep connections into the community that will help students experiencing acute life events. We also distribute an Annual School Climate Survey to all students, parents, and staff. The results of those surveys reflect that the school has implemented a sustainable program of support. No substantive difference in the planned action compared to the actual implementation.

Action 4.4: Title 1 – Parent Engagement
Implementation Status: 5 - Full Implementation and Sustainability
Our school holds an annual Title I meeting for all families where we encourage feedback on our academic program. Recommendations and feedback are shared back with school leadership to inform decision-making on how best to continue this action for the support of our students. No substantive difference in the planned action compared to the actual implementation.

Overall Successes: Our school was successful in actions related to Goal 4. We were able to maintain our educational partner engagement, continue strong participation in our PAC and ELAC meetings, and receive positive feedback on our Annual School Climate Survey. The results of that survey reflect that students, families, and staff believe our school is welcoming, safe, and provides a plethora of social-emotional and academic avenues of support.

Overall Challenges: Our school would like to see more participation in the PAC and ELAC meetings. We believe we will meet our goal of 100 participants this year but we would like to see slightly higher participation. We believe that the decisions made for students should also include the feedback of our students and families. Our participation rate this year was the highest thus far in the current three-year cycle but still was lower than our goal.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences in the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services; because actual expenditures were approximately the same as budgeted expenditures and principally directed towards our English Language Learners, low-income and foster youth students. We were able to meet our budgeted expenditures as shown in the 2023-2024 Contributing Actions Annual Update table for estimated actual expenditures. This is true for the LCFF funds. The Title 1 funds, which were used to support actions in Action 4 for Parent Engagement, were also fully expended.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our school used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.
The actions outlined in Goal Four helped make progress towards the LEA's goal: To support the progress in meeting the goal to Increase Educational Partner Engagement.

Action 4.1: Community/Parent Liaison and Meaningful School Activities
Effectiveness of Action: 3 - Effective
Metric: Participation Counts
Analysis Statement: As noted in the metric section above, our participation count data shows that we have strong participation of parents in school activities. While we did not meet our goal for this year, there are a number of activities yet remaining which will increase participation numbers toward reaching our goal. Our goal continues to be a total participation equal to enrollment each year. Attendance at our PAC and ELAC meetings should also be higher this year as we have meetings remaining to be held. We plan to increase our outreach efforts to improve the participation in those meetings in the upcoming three year cycle above our current goal of 100 participants annually. We will continue this action into the new three year cycle.

Action 4.2: Translation and Outreach Services
Effectiveness of Action: 3 - Effective
Metric: PAC/ELAC Participation
Analysis Statement: As noted in the metric section above, our PAC/ELAC participation shows that we are on track to meet our goal this year of 100 participants in PAC and ELAC meetings. We have improved our attendance at these meetings each year through improved outreach efforts, communication with parents in both English and Spanish, and by providing translation services at meetings for non-native English speaking parents and students. With the positive feedback received from students and parents thus far, we will continue this action into the new three-year cycle.

Action 4.3: Educational Partner Engagement
Effectiveness of Action: 3 - Effective
Metric: School Survey Data
Analysis Statement: Each year, the school encourages parents, students, and staff to participate in an Annual School Climate Survey. The survey covers multiple domains of questioning, ranging from school safety to social-emotional health and other areas. Participation in the Annual Survey has increased each year as a percentage of total student enrollment. As noted in the metric section above, our Annual School Climatte Survey data shows that 84% of parents feel encouraged to participate in our school. This data point is in-line with prior years and is within the statistical margin of error when compared to our goal of 86%. We also found additional positive data points in the survey, such as 100% of our students feeling safe at school, 96^ of students feeling connected, 99% of teachers feeling safe, and 99% of teachers feeling connected to the job and students. One of the reasons are participation increased this year was an extended survey window to give additional opportunities to complete the survey and communicate with all educational partner groups the importance of giving feedback. We also focused our efforts on better communication via multiple methods (email, text, in-person, phone calls and flyers), and on providing additional opportunities to participate in meetings (such as virtual broadcasting via Zoom or Google Meets while hosting the meeting in person). Because of the increased volume of feedback from students, parents and teachers, we will continue this action into the new three-year cycle.

Action 4.4: Title 1 – Parent Engagement
Effectiveness of Action: 3 - Effective
Metric: Title 1 Meeting Participation

Analysis Statement: As noted in the metric section above, our Title 1 Meeting participation shows that our efforts to improve communication have been successful. Students, parents and staff attended our Title I Annual Meeting to learn and share their voice on how we are using Title I funding to support our students. As a schoolwide Title I school, all students are encouraged to participate in our intervention and literacy programs via Small Group Instruction (SGI) classes, one-on-one tutoring, and the course opportunities that are hosted by the literacy teaching team. We also provided translation services at our meeting for any students or parents needing assistance. Because of the feedback from our parents, we will continue this action into the new three-year cycle.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The following actions did have the intended outcome based on the associated metrics as described in prompt 3. Due to educational partner feedback from our PAC/ELAC, staff and student feedback, we will continue to offer the action. Based on a collaborative evaluation of the current action, we believe these actions were effective:

Action 4.1: Community/Parent Liaison and Meaningful School Activities
Action 4.2: Translation and Outreach Services
Action 4.3: Educational Partner Engagement
Action 4.4: Title 1 – Parent Engagement

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Copy and paste verbatim from the 2023–24 LCAP.

Measuring and Reporting Results

- Copy and paste verbatim from the 2023–24 LCAP.

Metric:

- Copy and paste verbatim from the 2023–24 LCAP.

Baseline:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 1 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 2 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 3 Outcome:

- When completing the 2023–24 LCAP Annual Update, enter the most recent data available. Indicate the school year to which the data applies.

Desired Outcome for 2023–24:

- Copy and paste verbatim from the 2023–24 LCAP.

Timeline for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. "Effectiveness" means the degree to which the actions were successful in producing the desired result and "ineffectiveness" means that the actions did not produce any significant or desired result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education
November 2023

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Alta Vista Innovation High School	Ken Larson Principal	klarson@innovationhigh.org (760) 203-4846

Plan Summary [2024-25]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Alta Vista Innovation High School is a Workforce Innovation Opportunity Act (WIOA) and Dashboard Alternative School Status (DASS) charter school that provides a diverse, student-centered learning environment in which all students are held to high academic and behavioral standards. The school also emphasizes increased parental involvement, increased amounts of one-on-one supervising teacher and student interaction, student-driven participation in the learning process, wide availability of home- and school-based technology access, varied learning environments, and choices in curriculum programs. Our personalized learning model is tailored to the needs and interests of each individual student through the collaborative creation of an Individual Learning Plan (ILP). Our school model is centered on the principle that flexible instruction means students have access to their supervising teacher/tutor/counselor both from the home via remote/online resources and also at the center in-person. We believe that personalized learning is a central focus of how we can support our student population. Our personalized learning programs provide a unique experience for each student. The intent is to engage each student in the learning process in the most productive and meaningful way to optimize each student's learning potential and success. It allows the school to combine multiple assessment levels of student academic achievement through the regular recording of detailed learning records, compiling student work samples, and conducting annual state-mandated testing programs. The school offers this personalized learning option for students with the ultimate objective of enabling pupils to become self-motivated, competent, and lifelong learners. We are a year-round credit recovery program and we have 13 Learning Periods (LP) as our method of structuring the academic year. AVIHS focuses on personalized learning for students and the school has Dashboard Alternative School Status (DASS).

We have worked to expand our CTE and college dual-enrollment programs in support of our LCAP goals. Students are provided with multiple college options through articulated agreements with local community colleges, and they receive both high school and college credits on their academic transcripts upon course completion. The options provided to students were based on a student needs assessment that included student feedback and transcript analysis. We also paired some of the course options with current and upcoming CTE pathways that are/will

be offered by the school so as to maximize the amount of relevant credit for students to receive. Our goal is to continue expanding dual enrollment options to increase student proficiency in the completion of college-level work, blur the line between secondary and post-secondary continuation, and accustom students to the concept of learning as a lifetime endeavor.

The 2021-22 School Year was the first year AVIHS accepted Title 1 funds. In 2022-23, AVIHS became a Schoolwide Title 1 Program. The use of the Title 1 funds are described in this LCAP, in order to meet the School Plan for Student Achievement (SPSA) requirements. The Title 1 funds may be used to supplement the strategic plan directed at helping our at-risk students meet state standards and graduate. We are using the LCAP to fulfill the planning requirements for Comprehensive Support and Improvement (CSI).

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflections: Successes
We analyzed our school data from the CA Dashboard, DataQuest, our SARC, and our LCAP Annual Data Report, which aligns with the 8 state priorities. Although the school is identified for Comprehensive Support and Improvement (CSI), due to the federal graduation rate, and for Differentiated Assistance for student groups in the red, there were significant successes as shared in the key metrics below.

Attendance
Our attendance rate is high at 85.27%, which is a +21.44 percentage point increase from our baseline and is above our goal of 85%. We believe that the re-engagement strategies that we implemented, to help students and families during the crisis, also contributed to increasing the student's average attendance rate. Our teachers and retention support staff worked to address the serious concerns we had for students dropping out. Building relationships and staying connected to students has kept the non-completer rate at 3.66%, which is an improvement of 4.09 points from the baseline. This means we improved on keeping students enrolled in school and attending regularly.

Success Rate
Another important measure for us is our success rate, which is the percentage of students who graduate along with the percentage that are retained or returned to their local school district. Our success rate this year is 96.21% and is up +3.96 percentage points from the baseline. We are +16.21 points above our desired outcome of 80%. It's been high over the last three years and shows that our mission of meeting students' academic and social-emotional needs continues to be effective.

Retention Rate
One critical focus of our program is to improve the performance of our disengaged students and address social-emotional concerns such as trauma. We identify, early on, which students are not completing their schoolwork and then assign them tutors to ensure that they help support student learning. On average, our retention rate, which includes students who remain with us or who rematriculate to their local district, was 92.97% which is +2.82 percentage points from the previous year. We are above our expected outcome. This is due to the collaborative teamwork between our teachers, tutors, and counselors.

Graduation Rate

Our Dashboard Alternative School Status one-year graduation rate was calculated at 86.0%. This is an increase of +10.87 percentage points from our baseline. Our English Language learners, foster youth, and low-income students graduated at 88%. Homeless students were above the All student group. The Students with disabilities and African American student groups graduated at 84% and were above the All student group. This shows that our mission of meeting students' academic and social-emotional needs was effective.

Credit Completion
Our credit completion rate is a very important local metric that helps to monitor progress towards graduation. Credit completion has increased over the last two years. With additional supports in place, such as tutoring, our students were able to earn on average +61% more credits as compared to our baseline. Our English Language learners earned +26% higher credit completion rate more than the previous year. Students in the low-income and students with disabilities groups earned slightly more credit completion compared to the All group. We plan to increase our success with our students by increasing such support as tutoring, especially for all seniors.

English Learner Progress
The CA Dashboard ELPI is yellow and shows 36.6% making progress towards English. This is a +0.4-point increase from the previous year. Our English learner reclassification rate did increase from a baseline of 1.0% to 7.0% this year. This +6% increase was good, but we would like to be above the CA Average. The English Learner Progress Indicator shows that the state average was 48.7% of all EL students who made progress last year.

Suspension Rate
Suspension rate was rated blue on the CA Dashboard. It was 0.1%, which is the same as the previous year. Homeless students were in the blue or very low range, and Hispanic, along with socioeconomically disadvantaged students also had 0% suspensions. Foster youth and Two or More Races student groups had 0.9% and 0.7% respectively. There were no expulsions.

School Survey Results
Our school survey data shows that 96% of our students felt connected this year. This is an increase of +47 points from our baseline and +8 points over our expected outcome. This is an important metric for us, and we expect to be higher each year. Face-to-face interaction with a caring adult will help students feel connected. Additionally, 100% of the students surveyed said that they feel safe at school.

It is very important to us to ensure that we are doing everything possible to provide students with time and attention to support them during their time with us. Teachers also reported that 99% are feeling safe and 99% feel connected to the school. We have high expectations for school safety and connection, and we intend to continue to improve our school connectedness.

Parents are encouraged to participate in their student's education as well as school activities, events, and celebrations. This year we had more parents participate in our PAC and ELAC meetings compare to last year. On the school survey, 84% said that they feel encouraged to participate this year, which is a +1 point increase from our baseline.

Standards were met for the following state indicators:
* Parent Engagement,
* Local Climate Survey,
* Access to a Broad Course of Study,

* Basic Teacher and Instructional Materials, and
* Implementation of Academic Standards.

How will we maintain our success?

We plan to maintain and build on our success by implementing our LCAP actions to fidelity, carefully monitoring our progress, and by discussing our results within our professional learning community. We will continue to grow in our capacity as we engage in a process of continual improvement based on the Plan-Do-Study-Act model. Data discussions with teachers and administration will be grounded in learning community protocols aimed at improving performance on student outcomes.

The goals and actions articulated in our LCAP support our personalized learning model and adequate funding is provided to ensure that effective strategic supports such as tutors, student retention services, and trauma-informed trained teachers continue. We monitor the progress of our students through multiple measures around engagement and academic performance. LCAP data and other local data are discussed quarterly and shared with our educational partners, including the school board.

Due to the nature of our credit recovery, independent study, and Dashboard Alternative School Status program, certain data points are not included in the LCAP. Students do not take Advance Placement, or pass EAP in any amount greater than 11, and the CDE prohibits any potentially identifying student data. The federal calculation for the 4-5 year cohort graduation rate and the chronic absenteeism rate metrics are also not a match for our program, because the calculations are for seat-based programs and not short-term independent study programs that have students with high mobility. We utilize alternative metrics such as the one-year DASS graduation rate and local attendance rates to monitor and report our students' progress towards graduation. Furthermore, our dropout rate is calculated as our non-completer rate, which tracks any student who does not report to us that they have continued with another program to complete their education.

Reflections: Identified Need
This year our school is participating in Differentiated Assistance, and we are working with county experts on doing a robust needs assessment for student groups in the red on the CA Dashboard. We also used additional data State and local metrics to identify student groups' performance gaps and resource inequities. We used student outcomes data from the latest CA Dashboard, DataQuest, CALPADS reports, and local LCAP data tracking. The data shows that multiple areas must be addressed as goals and actions in the LCAP. Our internal data collection and reporting system uses metrics that are aligned with state indicators and local performance indicators. We regularly monitor and evaluate our identified outcomes, so that we can make program adjustments in areas that require improvement. As a professional network, we used a fishbone protocol for our needs assessment around our low graduation and academic results. This revealed that multiple causes play into the graduation rate that needs to be managed, such as credit completion, attendance, student motivation, parent engagement, and tutoring.

Last year, our school was identified for Comprehensive Support and Improvement (CSI), as the result of a low federal 4-5 year cohort graduation rate. Each year we engage in a cycle of improvement and examine the school data to determine if we will need to readdress actions in the areas of graduation, credit completion, EL reclassification, and academic indicators by increasing tutoring support for students who are in line to graduate.

State performance indicators from the California School Dashboard show the following indicators were very low or had a red status:

5-Year Cohort Graduation Rate
The federal 4-5 year cohort graduation rate was very low and qualified us for CSI. The 5-year graduation rate was 27.2% in 2023 and declined 2.6% from the previous year. This is far below the 68% federal threshold. The student group data used in our analysis is from the CA Dashboard. The lowest performing student groups were Hispanic at 26.4% and Socioeconomically Disadvantaged at 25.5%. African American, English learners, foster youth, homeless, students with disabilities were below the All group. No other student groups earned a performance color. We recognize the inequities between the highest student group and the other student groups and our plan to address the gap in graduation scores is outlined in our CSI plan and the LCAP.

CA Dashboard English Language Arts
Our Academic Indicator for English Language Arts for the All student group performed at 86 points below standard and received a red status. This was a 23-point decline from the previous year. The Hispanic, African American, English learners, students with disabilities and the socioeconomically disadvantaged student groups were all below standard. All other student groups did not have enough students for a status to be calculated.

CAASPP English Language Arts
The CAASPP scores also showed that 23% of our 11th graders were meeting or exceeding standards. This was a 5-point decrease from the previous year. Most of our students come to us deficient in credits and skills and they score at the 7th grade level in reading. The student groups who were well below the All group were English learners at 7%, students with disabilities at 10%, and African American students at 12%. This is because we serve students who are traditionally 3-4 grade levels behind in their schooling.

CA Dashboard Mathematics
The Academic Indicator for Mathematics for the All student group has a red status and was far below standard. We maintained and did not grow compared to the previous year. Our socioeconomically disadvantaged, English learners, Hispanic, students with disabilities and White student groups were also far below standard and earned a red status. In the orange were African American students. All other groups did not have enough students for a calculation to be made.

CAASPP Mathematics
Our 11th graders scored 2% meeting standards on the CAASPP for Mathematics. Although this is a -1 percentage point decrease from the previous year, it's always an important area for improvement, because of the nature of the students we serve. Hispanic and low-income scored at 2%. English Learners scored at 2%. This is because students who enroll with us are typically 3-4 grade levels behind in their schooling.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Alta Vista Innovation High School is a single-school Local Education Agency.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

We are a single-school LEA with Dashboard Alternative School Status. This is a summary of how we supported ourselves in the development of the Comprehensive Support and Improvement plan. With guidance and training from the CDE, the county, and our local professional network, we did the following:

• We assigned our State and Federal Programs coordinator to provide leadership for the school in conducting a needs assessment. By analyzing the 5-year cohort graduation data to identity gaps and inequities between the highest student group and the other groups. The results are described in the Identified Needs section in the LCAP Plan Summary. Our framework was Carnegie's Improvement Science and our model is the Plan-Do-Study-Act process for continual improvement.

• The type of data collected for the needs assessment was CA Dashboard, math, ELA, and graduation results, attendance data, tutoring participation data, and credit completion data.

• The data informed the CSI plan by guiding the root cause analysis towards intensive tutoring, as a viable research-based strategy that would increase student math skills credit completion and therefore graduation rates. The data revealed that students who participated in tutoring had 50% more credits completed than those who did not. As a result, Goal 1 Action 3 in the LCAP provides for intensive tutoring.

• The educational partners were engaged in the process though meetings held by leadership sharing the data and eliciting consultation from ELAC, PAC, staff and student groups. Our discussions centered on equity for all students with regards to learning expectations, obstacles to achieving their potential, and access to quality materials and instructional support such as tutoring. Additionally, as a professional network of DASS independent study schools, we reviewed graduation data using the fishbone protocol. This helped to reveal root causes. A deeper dive was done with the fishbone protocol with our admin team around credit completion rates and the potential resource inequities questions helped frame our analysis. We then engaged our educational partners, PAC/ELAC parents, students, teachers, classified and administration, in the analysis of the data. This led to their support for Goal 1 Action 3, which is assigning intensive tutoring for students as the means to improve the graduation rate.

Evidence-Based Intervention – Intensive Tutoring

The State and Federal Programs coordinator supported the school by leading the principal's team through the needs assessment, identifying

the evidence-based strategies, and they then led the staff through the selection of evidence-based strategies at their staff meeting.

The process for matching the selected intervention with the identified need was a collaborative endeavor through our professional network. We met regularly to study the data. From our needs assessment, we saw that those who attended tutoring earned 50% more credits, and we came to believe that tutoring could potentially close credit completion gaps. We then investigated other best practices for improving graduation.

With guidance from CDE and county offices, we searched out solutions to improving our graduation rate and we were guided to the following evidence-based research. In determining the selection of strategies to improve graduation, we considered and identified the following evidence-based research interventions from these sources:

• Evidence Based Resources Keeping Students on Track to Graduation (2012) – Center for Equity and Excellence in Education (LACOE Resource).
• Department of Education: Using Evidence to Strengthen Education Investments (2016).
• What Works Clearinghouse - The Institute of Science Education, Preventing Dropout in Secondary Schools, Educator's Practice Guide, (2017) https://ies.ed.gov/ncee/wwc/docs/practiceguide/wwc_dropout_092617.pdf
• Addressing unfinished learning with targeted help and high dosage tutoring: Thomas Fordham Institute 2021. Found at https://fordhaminstitute.org/national/commentary/addressing-unfinished- learning-targeted-help-and-high-dosage-tutoring.
• High Quality Tutoring: An Evidence-Based Strategy to Tackle Learning Los: Pamela Fong, REL West 2021. Found at https://ies.ed.gov/ncee/edlabs/regions/west/Blogs/Details/34.
• The impressive effects of tutoring on preK–12 learning: A systematic review and meta-analysis of the experimental evidence, Andre Joshua Nickow, Philip Oreopoulos, and Vincent Quan, Annenberg Institute at Brown University 2020.
• Not Too Late: Improving Academic Outcomes for Disadvantaged Youth: Philip Cook, Kenneth Dodge, George Farkas, Roland Fryer, Johnathan Guryan, Jens Ludwig, Susan Mayer, Harold Pollack, and Laurence Steinberg; Institute for Policy Research, 2015. Found at https://scholar.harvard.edu/sites/scholar.harvard.edu/files/fryer/files/not_too_late._improving_academic_outcomes_for_disadvantaged_youth_2015.pdfin.

This research on math tutoring, using a randomized controlled trial, with 2,718 males in the ninth and tenth grades, from the south and west sides of Chicago. They were 90% on free and reduced lunch programs and 95% were either African American or Hispanic. They demonstrated an increase in math scores by 0.19 to 0.31 standard deviations, as well as increases in math grades by 0.50 standard deviations. The positive impact of tutoring is also supported from the meta-analysis of the studies listed above, with one study in particular stating that there was an effect size for this practice above a 0.33 standard deviation (Nickow, Oreopoulos, Quan, 2020).

The rationale for selecting the intervention is based on three main components. First of all, our students are very low in math skills, which inhibits their capacity to earn credits towards graduation. Second, education research points to intensive tutoring as a viable means to increase math performance, which in turn will increase credit completion. Third, increasing students' capacity to earn credits through intensive tutoring will yield higher graduation rates.

Therefore, our professional network team and our educational partners selected the following research-based strategies to implement:
* We will provide one-on-one intensive tutoring.

* We will provide positive social incentives for good attendance.
* We will track specific data for our seniors through site teams of teachers, counselors, and student retention support staff.
* We are going to continue seeking educational partner involvement and input.

We will address the low performance in the areas of graduation, ELA and mathematics, by assigning intensive tutoring to students who demonstrate low scores as determined by their NWEA diagnostic results. These low scores reveal that there are inequities that must be resolved through the implementation of our plan.

Resource Inequities Analysis

The State and Federal Program coordinator provided guidance to the school through a resource inequities analysis. This showed that more funds should be added to LCAP Action 1 Goal 3, because the following groups had significant gaps between the highest student group's graduation rate and other student group rates. Specifically, every student group was below the white student group in their 4-5 year graduation rate. There was a significant difference of about 10 percentage points for our Foster Youth and homeless students when compared to the All student group. Additionally, our homeless, Socioeconomically disadvantaged, English learners, and Hispanic students had a gap of about 10-20 points from the highest student group. This data shows that there are inequities in performance and our LCAP with its CSI plan is designed to address them in a comprehensive manner with research-based strategies such as intensive tutoring.

We are a charter school, and as a single school LEA, and our State and Federal Program coordinator provided support by discussing with school leadership to do the resource inequities and analysis, and agreeing to increase the funding for LCAP Goal 1 Action 3. The guiding framework was from The Alliance for Resources Equity at www.educationresourceequity.org. We also used the Dimensions of Resource Equity – School-level Diagnostic Questions, to determine key resource levers than create equitable learning experiences for all students.

Additionally, the inequities rubric, provided by the Los Angeles County Office of Education, was used to help identify if there were any barriers to the following:
• Access to Highly Qualified Teachers
• Access to Counselors
• Access to Student Retention Services
• Access to Tutors
• Access to Interventions both social-emotional and academic
• Access to Incentives for attendance, graduation, and retention
• Access to Support for high needs English learners, foster youth, special education, homeless
• Access to Technology and instructional materials

The resource inequities are being addressed by increasing the funding in LCAP Goal 1 Action 3 for intensive tutoring. This goal provides funding for the tutoring support that will be provided to students as the action is implemented at the school site. Students are identified for tutoring based on NWEA diagnostic results, teacher referral and self-referral. Tutors connect with students daily and provide academic support in math and other subjects to help students learn and earn credits towards graduation.

All students receive a personalized learning program that is unique to each student and is specifically designed to create an optimal path toward graduation. The independent study model assigns a supervising teacher to each student, who develop a close relationship with the student, supports the student from enrollment to graduation, and brings in resources and support staff as needed.

Furthermore, the framework for guiding our process was based on Improvement Science in Education from the Carnegie Foundation for the Advancement of Teaching (2015). The Plan, Do, Study, Act (PDSA) model, when done frequently and in collaboration with a network will help our school improve its outcomes on multiple metrics. Through our professional network, we used a fishbone protocol to determine root causes behind the conditions and drivers that lead to the outcome of a graduation metric. This helped us to define the problem we would like to address. Our discussion focused on what changes we wanted to introduce and why. We plan to collect and share data regularly around credit completion, attendance, and senior graduation progress to help answer the question: "How will we know which change is an actual improvement?"

The Six Principles of Improvement from the Carnegie Foundation helped provide a foundation for our analysis:
1) Make the work problem specific and user-centered: What specifically is the problem we are trying to solve?
2) Variation in performance is the core problem to address: What works, for whom and under what set of conditions?
3) See the system that produces the current outcomes: What are the drivers that yield change?
4) We cannot improve at scale what we cannot measure: What are the key outcomes that track progress?
5) Anchor practice improvement in disciplined inquiry: How will we engage in rapid cycles of Plan, Do, Study, Act (PDSA)? "How will we know which change is an actual improvement?"
6) Accelerate improvements through networked communities: How can we accomplish more together?

These guiding principles will be utilized in our professional network throughout the year as we meet to discuss progress and next steps.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The State and Federal Programs coordinator will support the school team and work with them in monitoring and evaluating the effectiveness of their improvement plan throughout the school year.

The process, including metrics, used for monitoring the implementation of the CSI plan is that the State and Federal Programs coordinator will collaborate with the school team to collect tutoring participation and share with teachers and school leadership.

The process, including metrics, used for evaluating the implementation of the CSI plan is to pull tutoring participation counts every learning period and determine if there is an increase in those who have received tutoring. The target is to increase tutoring participation by 50% at the end of the 7th learning period.

The process, including metrics, used for monitoring the effectiveness of the interventions to improve student outcomes is to pull and analyze credit completion for all students who participated in tutoring. This will be done every learning period.

The process, including metrics, used for evaluating the effectiveness of the interventions to improve student outcomes is to analyze the credit completion data to determine if it's increased. The target for the credit completion rate is 4.0. Additionally, we expect that the graduation rates will increase by at least 1% each year.

Additionally, we will collaborate with our professional learning community network and implement the Plan, Do, Study, Act (PDSA) model as our process for continuous improvement. Through a collaborative team of school educators, we will use school data, such as tutoring participation, credit completion rates, attendance, and graduation rates to inform our inquiry and help focus on results. By monitoring our evidence-based interventions, we can see how seniors and others are utilizing the one-on-one tutoring and social incentives for good attendance. We will also continue to monitor our key metrics, such as credit completion rates and NWEA results, to identify the needs of struggling students who could benefit from additional one-on-one tutoring.

Again, the measure of success for the plan will be based on key indicators such as credit completion, attendance, tutoring contacts, the DASS one year graduation rate and the federal 4-5 year graduation rate. Since each student is assigned one-on-one time with an individual teacher all students who are identified in the system as 12th graders are monitored closely by their teacher for progress towards graduation. In addition, counselors monitor all seniors for credits earned. We plan to monitor students early and often so that we can be proactive in responding to student academic needs. We can build the capacity of our teachers and tutors so that they are able to do this. We also plan to do the following: provide support staff to work with students falling behind on a regular basis to address their specific needs; ensure that students in need participate in tutoring with a tutor they can connect to regularly; and promote participation in small group instruction when possible.

To help ensure that we have the whole school community mobilized to support our Comprehensive Support and Improvement plan, we will report results back to teachers, students, parents and the school board. We will share our progress on our CSI plan at least twice a year. We can build the capacity of our Parent Advisory Committee (PAC) and English Learner Advisory Committee (ELAC), by sharing the school data progress with them at their meetings and eliciting their feedback as part of our PDSA model. Our school board learns about student progress towards graduation on a regular basis, but with the CSI plan in place, we will ask for their feedback and input as part of our process. We have regular data reports that we can share out with student and parent groups throughout the year, and we will continue to collaborate and celebrate as students make progress towards graduation.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
PAC/Parent Advisory Committee	11/2/23 - Agenda included: • Title I Program Evaluation was shared with parents. Presented on how Title I funds are used to support students, how we provide intervention using this funds, improved services such as Read180 increased by 650% • Reviews our 4 LCAP goals • Community Schools was presented and that we need support from our educational partners as we write our implementation grant • EL reclassification was shared • School events were shared for all sites in the Inland Empire region • Los Angeles region update included that Inglewood and Los Angeles sites are implementing a Student Leadership club • Based on questions from parents, one of the administrators covered our DASS school status and our designation as a Comprehensive School Improvement model. We shared our action plan for improving student outcomes through increased tutoring, and that we already have seen 200% increase in tutoring minutes across the school tutoring teams. 11/9/23 - Agenda included: • Sharing of 23/24 LCAP infographic

- Noting 4 LCAP goals, discussion of LCAP role and importance. Sharing of where to find LCAP on our website
- Sharing our Title I program and how Title I funds support closing the achievement gap
- Review of our intervention programs for literacy and math

Feedback from parents and students was that they would like:
- More clear communication in both English and Spanish
- Sports offerings
- More social events for students to interact positively
- Parent swag
- Family nights such as going to the movies, bowling, attending sports events, and school picnics
- EL reclassification update

11/15/23 - Agenda included:
- Thank you for everyone that attended Back to School Night
- Title I Program Evaluation and LCAP Overview presentation
- Election of officers
- Upcoming school events
- Request for input
- A parent requested that we create a chess club or a school newspaper

2/29/2024 - Agenda included:
- Sharing of School Accountability Report Card and its location on the school website
- Grant and Funding update

Learning Recovery Block Grant review
Community Schools grant review
Ethnic Studies Block Grant review
Educator Effectiveness Block Grant review
Art Music and Instruction Grant review
- CTE and Dual Enrollment pathways review

EMT program starting soon
24 out of 32 students completed their dual enrollment college course
Upcoming college course offerings this nextx semester
- State testing update
- Community Schools update
- Graduation update

	• EL Reclassification and ELPAC results update • Sharing of Annual School Climate survey link and QR code • LCAP and parent ideas open forum Shared our 4 LCAP goals Asked for parent feedback on additional schoolwide events and field trip ideas 5/9/24 - Upcoming meeting agenda includes: • LCAP Goals and Actions update • California Dashboard Data Inclusion of ELPI next year • Differentiated Assistance • Comprehension School Improvement • EL program updates • Public comment and feedback opportunity for students and parents
ELAC/ English Learner Advisory Committee	8/31/23 - Agenda included: • Introduction of the ELAC leadership team • Elections • Review of a Needs Assessment survey that was mailed to parents asking for suggestions on upcoming ELAC topics • Introduction of our Community Schools team, the purpose of the grant funding and some of the initial services we provide (and plan to provide) • LCAP Budget Overview for Parents was shared, and the 4 goals that make up our LCAP Additional information was shared that explained how we implement LCAP and the purpose of each of our 4 goals and actions related to those goals • Upcoming school events and state testing • Upcoming career fair and workforce development activities in the Inland Empire and Los Angeles regions 11/2/23 - Agenda included: • Title I Program Evaluation was shared with parents. Presented on how Title I funds are used to support students,

DRAFT

how we provide intervention using this funds, improved services such as Read180 increased by 650%
- Reviews our 4 LCAP goals
- Community Schools was presented and that we need support from our educational partners as we write our implementation grant
- EL reclassification was shared
- School events were shared for all sites in the Inland Empire region
- Los Angeles region update included that Inglewood and Los Angeles sites are implementing a Student Leadership club

11/9/23 - Agenda included:

- Sharing of 23/24 LCAP infographic
- Noting 4 LCAP goals, discussion of LCAP role and importance. Sharing of where to find LCAP on our website
- Sharing our Title I program and how Title I funds support closing the achievement gap
- Review of our intervention programs for literacy and math
- Feedback from parents and students was that they would like:

More clear communication in both English and Spanish
Sports offerings
More social events for students to interact positively
Parent swag
Family nights such as going to the movies, bowling, attending sports events, and school picnics
EL reclassification update

2/29/24 - Agenda included:

- Sharing of our School Accountability Report Card
- Budget update of grants and LCAP
- Student CTE course completion numbers, and course offerings for Summer and Fall 2024

Community School Grant update and information about what our school is doing to transition to a community school

	• Upcoming school events, such as eSports competitions, construction and plumbing CTE pathway cohorts starting soon • Parent feedback opportunity on how we can increase our graduation rates for students • ELPAC test window • Review of LCAP Goals and Actions 1. Increase Academic Progress 2. CTE and Dual Enrollment Participation 3. Improve student retentions 4. Engage all stakeholders Feedback opportunity for parents asking how we can increase graduation rates, encourage more participation in school events, encourage ELPAC participation, and how we can better promote the Annual School Climate Survey 5/9/24 - Upcoming meeting agenda includes: • LCAP Goals and Actions update • California Dashboard Data • Inclusion of ELPI next year • Differentiated Assistance • Comprehension School Improvement • EL program updates • Public comment and feedback opportunity for students and parents
Teachers and Staff	9/14/23 - Teachers participated in the LA Suicide Summit to learn, collaborate, and share mental health resources. 10/10/23 - A CPR training was held on campus to train teachers and other support staff. This was to help them get their CPR certification. 11/17/23 - Teachers and staff participated in part 3 of the TREC training and learned more about mindfulness and meditation so that they can better support students that are enrolled in Mindfulness and Meditation classes at the school.

	2/7/24 - Teachers participate in CWA Youth Summit to learn, collaborate, and stay informed on CA state Youth Program Providers/ WIOA. Professional Development and networking, share best practices. 2/24/24 - Inglewood teachers and leadership hosted a booth in the city's Black History Month City of Inglewood Celebration event to share about our program. 3/19/24 - Administrators and teachers participated in CCSA Conference to learn, collaborate and stay informed about charter schools. Network, professional development, share best practices (attend workshops), attend keynote presentations and panel discussions. 3/15/24 - Chicago staff was trained to be proactive in case of an active shooter on campus. 3/29/24 - San Jacinto staff was trained to be proactive in case of an active shooter on campus. 4/24/24 - TREC Retreat and Meeting to discuss practices we can implementwith students and staff, yoga, heart math and understanding. 4/29/24 - Weekly Staff Meeting to discuss happenings at school, testing, credit completion, events, improvements and idea generation. 5/3/24 - WIOA/JAG weekly meeting discussing WIOA and JAG process for students and to discuss student progress.
Administrators / Principals	Our Administrators group is called the Regional Leadership Team, which is composed of the following groups: - Superintendent and Project Manager - Principals - Assistant Principals - Learning Center Coordinators (Certificated administrators similar to an Assistant Principal) - Lead Teachers

	- Site-level Counselors - Student Retention Support staff - Student Relations Managers and Student Regional Utilities (similar to office managers) - Regional Specialists (Special Education Program Specialist, English Learner LCC, Regional Counselor) - Regional Administrators (State and Federal Program Coordinator and Director of CTE) The Regional Leadership Team meets monthly either virtually or in-person to review progress toward our LCAP Goals and Actions, CSI, DA, and other needs as they arise. From these meetings, we implement a share out model where the site leadership work with their certificated and classified staff at local professional developments. The feedback from those meetings is used when setting the agenda for upcoming Regional Leadership meetings. During 4 training events in the months of September through December 2023, administrators participated in Cognitive Coaching. This is a system of encouraging positive conversations and how to handle crucial and coaching conversations in a professional manner.
Students	8/16/23 - Senior Information Meeting for students and families to provide information about upcoming senior events and graduation requirements. One parent commented positively about the fact that our school pays for everything (grad night, field trips, etc.) 9/7/23 - Student Awards Ceremony/Back to School Night. Held awards ceremony for students and their families. Awards given for credit completion over 4 credits per LP, completion of CTE pathway/dual enrollment. Community Liaison shared community resources. A parent expressed they appreciate our dedication to students. 10/19/24 - Awards ceremony to recognize students for credit completion and dual enrollment. Principal shared about dual enrollment opportunities and CTE pathways. Parents expressed interest in dual enrollment and the opportunity to get college credits.

2/1/24 - CTE Students were taken to Lancaster and competed for different categories. Two of our students won for public speaking and resume writing.

2/2/24 - Students were exposed to many local business, guest speakers, and employers seeking to hire during a Career Day. This was done on the Chicago site and we bussed San Jacinto students to participate as well.

2/8/24 - Students were provided a fieldtrip opportunity to a Youth Leadership Confence where they received coaching on how to be leaders.

2/8/24 - Students were provided a fieldtrip opportunity to see a theater play at Riverside City College.

2/21/24 - WIOA Monthly Workshop offered to students with varying subjects on workforce development. Guest Speakers- including Union Pacific Railroad.

2/22/24 - Students were provided a fieldtrip opportunity to see the live theater play of The Lion King. This was a professional theater play in Orange County.

3/20/24 - WIOA Monthly Workshop offered to students with varying subjects on workforce development. Guest Speakers- including Union Pacific Railroad.

4/10/24 - Senior Social event to celebrate upcoming graduates; provided grad information, honored honot roll students, took graduation photos, film grad video, and provided resources regarding FAFSA

4/17/24 - WIOA Monthly Workshop offered to students with varying subjects on workforce development. Guest Speakers- including Union Pacific Railroad.

5/6/24 - Held awards ceremony for students and their families. Awards given for credit completion over 4 credits per LP, completion of CTE pathway/dual enrollment. Community Liaison shared

	community resources. A parent expressed they appreciate our dedication to students.

5/15/2024 - WIOA Monthly Workshop offered to students with varying subjects on workforce development. Guest Speakers- including Union Pacific Railroad. |
| SELPA/Special Education Local Plan Area | Our SELPA Compliance Officer vetted our LCAP this year and stated that no changes were required. The El Dorado Charter SELPA participates and provides guidance in the CDE's Special Education Monitoring Processes. The El Dorado Charter SELPA provides program and technical support by the Program Specialist and/or other SELPA team members. Dropout (and Graduation), Post-secondary outcomes data for special education students are reviewed in a collaborative process with the El Dorado Charter SELPA. Guidance for developing and monitoring transition plans for students with disabilities is regularly offered and available from the El Dorado Charter SELPA. Classified and Certificated Staff training related to special education students is provided by the El Dorado Charter SELPA as needed and requested. The El Dorado Charter SELPA requests the participation of parents of students with disabilities in the SELPA Community Advisory Committee (CAC). The SELPA Program Specialists were provided a copy of the LCAP for consultation on the alignment of LCAP activities with the annual assurances support plan |

| School Board | 11/28/23 - Shared Title I Program Evaluation for 2022-2023 school year. Explained how literacy programs are being used to support Title I for all students as Alta Vista is a schoolwide Title I school. Shared how parent participation in PAC and ELAC meetings are improving and that we are offering staggering scheduled for meetings to improve attendance. State and Federal Program Coordinator was asked by Board Member Rathgeber for clarification about how Goal 1 was being met through the number of students participating in intervention courses. The response was that the overall number of students are increasing in intervention courses which is correlated with the expansion of Title I schoolwide and that the intervention courses have improved Lexile scores on NWEA Reading tests.

2/27/24 - Shared Mid-Year LCAP Monitoring Report for 2023-2024 school year. Explained that this is a new report being shared with the school board this year. Reviewed metrics for each Goal 1-4 with progress and challenges for each goal and action. Also shared areas of continued focus to ensure improvement of local and state reporting data.
Shared California Dashboard Report. Explained that our school is a Dashboard Alternative School Status (DASS) school and shared an accountability update. The board was informed that we are held to state priorities which are tied to LCFF funding. The board was then shared our current California Dashboard Report areas with specific areas of success and challenge. Board Member Rathgeber asked if any areas of the dashboard are concerning. The answer was that the school's performance levels in the Language Arts state assessments continue to be a concern.

4/9/24 - Shared the LCAP Goals and Metrics report. The report is a comprehensive view of the school's progress toward LCAP goals from 2019-2020 through 2023-2024 school years. Shared specific successes and challenges, and how we plan to address them in our upcoming LCAP cycle. Shared the Annual School CLimate Survey Report. Educational Partner participate was higher this year than prior years, albeit not much higher than expected. Results of the data show that students, parents, and staff are happy with the school and how we are addressing social-emotional, financial, culture, and other priorities through LCAP funding. |

The 2024-2025 LCAP was developed through an interactive educational partner process. The goals, actions, and focus of the LCFF funds were developed through a process that included community and educational partner consultation to best meet the needs of our students as identified through the required metrics, local indicators, and educational partner feedback. Updates and additions to the 2024-2025 LCAP have been influenced by the process described above. The following is Educational Partner feedback that influenced the development of the LCAP.

Parents Feedback: We utilized multiple opportunities for parents to interact with the school and provide feedback on the LCAP. The LCAP goals and actions were reviewed with parents at PAC and ELAC meetings held throughout the year. During those meetings, parents were asked how we could best meet the needs of our students through the goals and actions, and we shared the amount of funding available in our LCAP to support student achievement. We also shared and requested feedback at our LCAP progress at the annual Title I meeting and through our Annual School Climate Survey. Parents expressed that they would like more field trips (Goal 1 Action 5) for their students and that they appreciated how safe students felt at the learning centers (Goal 2 Action 6). Many parents felt that our tutoring was much better this year because the school hired additional tutors for their students (Goal 1 Action 3).

Student Feedback: Students were encouraged to participate in PAC, ELAC, and other site meetings to make their voice heard. They expressed that their teachers were, by and large, very supportive in their school studies. Students shared that they enjoyed our field trips but wished we held more trips throughout the school year (LCAP Goal 1 Action 5). They also would like more varied food offerings (LCAP Goal 3 Action 4). Many students stated that they really liked our SGI offerings and that the SGI classes really helped them complete their credits (LCAP Goal 1 Action 3).

Administration Feedback: Administrators met regularly as a team collaborative throughout the school year both virtually and in-person. The meetings had various agenda topics ranging from attendance, LCAP, student engagement, graduation rates, Comprehensive School Improvement, Differentiated Assistance, and budget. Administrators were engaged in numerous assessments of our program to review data and develop strategic plans related to improving our performance toward LCAP goals and outcomes.

Teachers Feedback: School leadership hold regular staff and all-staff meetings for their instructional staff. During those meetings, school leadership reviews a wide range of topics, from how we can support our unduplicated student populations and instructional/academic support for students, to specific topics such as McKinney-Vento training by counselors. Teachers were informed of our status as a Comprehensive School Improvement and Differentiated Assistance designations, what those designations mean in regards to student outcomes and how best to improve our data over time. Teachers shared feedback about many school initiatives but one feedback that seemed to resonate clearly across our instructional staff is that our eSports program (LCAP Goal 1 Action 5) really engaged students in a positive way at the learning centers.

School Board Feedback: Regular LCAP progress reports were shared with the school board throughout the school year. Board members expressed their satisfaction with our efforts toward meeting and improving school performance on our goals and actions. Whenever possible, the report to the school board shared our action steps toward improving a metric that was falling below the state average or goal as tracked by internal data. Board members expressed that they were very pleased with the Experiential Learning and field trip opportunities offered to our students through LCAP Goal 1 Action 5 funding. They also loved our use of LCAP Goal 3 Action 2 funding to support our students

through additional counselor coverage during school breaks. Additionally, the school board members were pleased that our participation rate in the Annual School Climate survey increased from last year.

Public Feedback: Each board meeting, time was allotted for comments and feedback from the general public. To date, there has not been any feedback given from the public to the school board.

DRAFT

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Increase Academic Progress: This is a focus goal for increasing academic progress for all students, especially our English Language Learners, low-income, and foster youth, who struggled during the previous year. In the next three years, we will have mitigated the negative impact learning loss had on our students, and we will see improvement in our NWEA, EL reclassification, credit completion and graduation rates.	Focus Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)

Priority 4: Pupil Achievement (Pupil Outcomes)

Priority 5: Pupil Engagement (Engagement)

An explanation of why the LEA has developed this goal.

As a result of our CSI status and our analysis on key state and local data, we determined the need for a focus goal on academic performance for all of our unduplicated students. This new goal specifically addresses low key metrics such as the English Learner reclassification rate, credit completion, and graduation for our student groups. We looked at our student group data, which reveal performance gaps between the "All" Student Group, and the unduplicated students. Our students also take the NWEA MAP assessment, and we measure academic growth from year to year in this way. This year, performance gaps among student groups were also revealed, using that assessment. We understand the gaps that need to be closed for our students, and this focus goal was carefully designed to support their academic needs with targeted interventions and tutoring.

We sought the consultation of our educational partners, and involved them the LCAP process, which we believe promotes positive engagement, buy-in and trust. We know that additional tutoring, interventions, and counseling support will help address the learning loss over the next few years.

Actions

Action #	Title	Description	Total Funds	Contributing

| 1.1 | Long-term English Learns (LTEL) and English Learners support staff, interventions, and materials | Our ELD program follows the CA EL Roadmap for effective practices, and we provide additional support for ELs struggling with academic proficiency.
• EL Small Group Instruction (SGI).
• Paraprofessionals in ELD SGI classes.
• English Learner Tutors.
• Individualized English Language Development Plan (IELDP).
• Access to other effective intervention programs such as Read180 and System 44.

Upon reviewing our local and state assessment data broken down by subgroup data, we have identified several performance and outcome gaps and general programmatic/instructional needs for the English learner student population. Our English learner students show the most opportunity for continued academic improvement based on the most current state and local ELA and Math data as reflected in the metric tables. Based on a local needs assessment we have found that our English learner students need additional support and scaffolds to be successful. We will address this need by providing an EL Paraprofessional or other trained bilingual support personnel. This includes, but is not limited tso EL Tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Students will receive individualized support based on their specific English proficiency level. We use an Individualized English Language Development Plan (IELDP) in collaboration with students and families. Implementing our Designated and Integrated English Language Development (ELD) is an integral part of our comprehensive program for every English learner in order to meet the linguistic and academic goals at their grade level as identified by their level of proficiency. EL's participate in Newcomer programs, Structured English Immersion or English Language Mainstream, based on their capacity to successfully advance in their language acquisition and their academics. Support staff will provide specific language instruction through vocabulary and language development to support literacy skills and language acquisition. We anticipate the student performance on CAASPP Math and ELA, as well as on the English learner annual growth assessment will reveal improved performance for these students. This action is designed to meet the needs most associated with English learner students. Using real time tracking, student language proficiency and academic progress will be monitored and we expect that their ELPAC scores, as well as the reclassification rate, to increase as a result of the personalized academic support they will receive from qualified | $955,786.00 | Yes |

| 1.2 | All academic interventions and program materials | Academic interventions will be provided for our English learners, LTELs, low-income and foster youth students struggling with academic proficiency which will help them improve their skills.

This action will address the following reds on the CA Dashboard API:
ELA: All students, African American, Hispanic, English learners, low-income, students with disabilities
Math: All students, Hispanic, White, English learners, low-income, students with disabilities

Eligibility for Differentiated Assistance:
EL: ELA, Math, (Priority 4)
Hispanic: ELA, Math, (Priority 4)
LI: ELA, Math, (Priority 4)
SWD: ELA, Math, (Priority 4)

Student groups related to eligibility for Differentiated Assistance have average initial NWEA MAP scores at the following grade level:
Reading:
EL: 766.86 = 4th grade level
LI: 940.25 = 6th grade level
SWD: 782.01 = 4th grade level
Math:
EL: 581.38 = 4th grade level
LI: 748.82 = 5th grade level
SWD: 563.42 = 4th grade level

To meet these needs, the LEA will provide the following:
• Professional development for targeted instruction in small group settings.
• English Intensive, Algebra Intensive, and an appropriate diagnostic Online Learning Platform.
• Access to other effective intervention programs
• Implement a twice-annual NWEA test schedule with a review of data to more accurately target students for intervention. | $1,015,736.00 | Yes |

personnel.

		As demonstrated in the Identified Needs and Metrics sections, State and local assessments in ELA and Math indicate that some of our lowest performing students are the English learners, low-income and foster youth student groups when compared to the All student group. To address this gap, academic interventions will be provided for our English learners, low-income and foster youth students struggling with academic proficiency which will help them improve their skills. Targeted instruction in small group settings or other effective intervention programs, such as Read 180 and Math 180 will accelerate their academic abilities. Students who participate in academic interventions will improve their learning gaps, as shown in their NWEA scores. We expect that these actions will be effective at increasing students' mathematics and reading assessments. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis. We expect our NWEA scores to increase each year.		
1.3	Tutoring and supports for students	Tutors will be provided for our English learners, LTEL, low-income, and foster youth students who need additional support in completing their coursework and earning credits toward graduation. This action supports our Comprehensive Support and Improvement plan, • Tutors are available for additional support • Intensive tutoring for credit completion • Improve tutor-student relationship to increase participation. • Access to tutors is both virtual and in-person To address our CSI status and improve our graduation rate, we will increase our tutoring support. This action is expected to reduce resource inequities among our lowest student groups' graduation rates and credit completion rates. As demonstrated in the Identified Needs and Metric section, graduation rates are among the LI, FY & EL student groups. To address the achievement gaps, tutors will provide support for our English learners, low-income and foster youth students who are credit deficient. This will help them complete their assignments and increase the rate at which they finish their courses. Local and virtual tutors are actively engaged in reaching out to our English learners, low-income, and foster youth students. Tutors deliver a critical level of support that we have seen be successful in helping address academic gaps effectively and improve	$1,347,779.00	Yes

		student progress towards graduation. We expect that these actions will increase graduation rates for our English learners, low-income. and foster youth student groups. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our credit completion rate to increase each year.		
1.4	Counseling students towards graduation and materials	Counselors will be principally directed to promote high expectations and provide guidance toward graduation. Counselors will connect frequently and as needed with high-needs students, to help meet social-emotional needs. Additionally, we will do the following: • Provide additional training and support to identify students' socio-emotional needs, incorporate counseling services to support students' well-being, and create a positive learning environment. • Provide additional training on the Multi-Tiered, Multi-Domain Systems of Support (MTMDSS). MTMDSS provides tiered levels of school counseling instruction and data-driven intervention services that help address the needs of students in the areas of academic, college/career, and social/emotional development. • Counselors help address obstacles to graduation. • Additional counselors reduce the counselor-to-student ratio and allow for equity and improved access to resources. • Provide additional training and support in implementation of our Trauma-Resilient Educational Communities (TREC) model of socio-emotional support. Some of our lowest graduation rates are among the English learners, low-income and foster youth student groups when compared to the All student group. This is demonstrated in the Identified Needs and Metrics sections. To address these gaps, counselors will provide additional support to English learners, low-income and foster youth students. They will promote high expectations and provide guidance towards graduation. Counselors will connect with students and effectively monitor and guide students to achieve their graduation goals. We expect to continue providing counselors, who help address obstacles to graduation that English learners, low-income and foster youth students have; however, because we expect that all students could benefit, action is provided on an LEA-wide basis. This action has been effective for many students in helping them successfully graduate and will increase graduation rates for our	$700,139.00	Yes

		student groups each year.		
1.5	Student activities that increase learning efforts	Students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will also do the following: · Improve the relationships between staff and students to increase school participation and engagement. · The school will acknowledge student achievement and celebrate student successes to get buy-in. · The school will also boost student morale by increasing student-led events and activities creating a positive learning environment. • Group activities that celebrate progress • Enrichment experiences and field trips. • Hosting additional school activities that provide cross-linking between the school and community partners. As demonstrated in the Identified Needs and Metrics sections, the English learners, low-income and foster youth students are often underperforming in their capacity for credit completion. The expected average is 4.0. They often exhibit low motivation to complete their assignments. To address this need, students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. This includes but is not limited celebrations, field trips and enrichment experiences. We have witnessed how these actions can inspire students to continue to be productive and strive to accelerate their learning. We expect that these actions will have a positive impact on work completion rates. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis. We anticipate an increase up to 4 credits per learning period.	$260,000.00	Yes
1.6	Teachers and staff are qualified and	All students will have access to teachers who are fully credentialed and appropriately assigned to teach in their subject area of competence. Any	$10,352,012.00	No

		teacher misassignments will be monitored and rectified, so that students are served according to the legal requirements. Students will have access to classified staff who support the school program.		
1.7	Title 1 Federal Funds Intervention	Our students who struggle with academic performance need additional intervention programs and support personnel to effectively address their learning gaps. Federal funding is directed towards hiring Literacy teachers and tutors, who will implement research-based educational strategies. We expect students will improve their performance on academic metrics.	$452,765.00	No
1.8	Professional Development for English Learners	Our ELD program follows the CA English Learner Roadmap for effective practices, and we provide professional development for staff to help serve English learners and LTELs with their language acquisition. We will do the following: • Professional development for implementing the EL Tool Kit. • Professional development for effective EL strategies, such as SIOP. • Paraprofessionals in ELD SGI classes trained. • EL Tutors trained. • Training in Individualized English Language Development Plan (IELDP). • Professional learning communities, workshops and conferences for staff. Our English Language learners reclassification rates are below the state average, and will need additional support from faculty and support staff who employ effective strategies that will help improve students' ELPAC scores. To address this need, they will be served by trained EL Paraprofessionals or other trained bilingual support personnel. This includes, but is not limited to EL Tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Trainings could include, but are not limited to developing an EL Tool Kit, implementing effective EL strategies using SIOP (Sheltered Instruction Observational Protocol), and scaffolding strategies such as modeling, building schema, contextualization, and others. Additionally, workshops, conferences and professional learning communities provide information that will build the capacity of faculty and staff to increase student performance. We expect that our English learners' ELPAC scores,	$4,000.00	Yes

		as well as the reclassification rate, will increase as a result of the personalized academic support and attention they will receive from qualified personnel.		

DRAFT

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Students Will Gain Skills for College and Career-Readiness: This is a broad goal for helping students gain skills for college and career-readiness for all students, including low-income, English learners, and foster youth students.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This goals was developed with the special needs and interests of our unique student population in mind. Most of our students choose our independent study program to change their story and increase their viability after graduation. We support their interests in pursuing a career through our CTE course work and partnerships. Everyone receives state standards aligned curriculum and we encourage students who are college bound to meet the A-G requirements. Year after year, we expect these metrics to show improvement for all of our student groups.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Career-readiness, Career Technology Education and college-readiness for English learners, low-income and foster youth students	Students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will do the following: • Counselors support career and college-ready efforts • 9th through 12th graders have access to dual enrollment college courses. • CTE programs and pathways offered. • WIOA job training and placement. • College and Career days as well as field trips. Some of our lowest career and college-readiness rates are among the English learners, low-income, and foster youth student groups who are all below the state average of 18.7% for graduates completing a CTE pathway. They were also below the state average of 44.5% completing A-G courses and below 11.1% in the A-G + CTE pathway completion rate. Our English learners, low-income and foster youth students need to be prepared to pursue a career, or attend a college. To address this need, our students engage in career inventory, exploration and professional skills, in order to align their interests into either CTE or other secondary education. We take into consideration local employment opportunities and student interests to help guide students into coursework that is valuable. Support	$1,295,220.00	Yes

		personnel, staff, partnerships and materials are essential to tailor and implement the curriculum for students. We have witnessed our students be successful in these programs. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on our college and career readiness rates for our students and we expect to increase each year for A-G and CTE.		

2.2	Professional development addressing English learners, low-income and foster youth students	Students participate in a comprehensive incentive and recognition system that helps support their scholastic efforts. Students are recognized for their efforts in a variety of ways that are meaningful to them. We will do the following:
		
		· Regional trainings, workshops/seminars.
		· Report on training outcomes.
		   • Best practices shared in PLC.
		   • Outside conferences that have an impact on At-promise youth.
		
		As demonstrated in the Identified Needs and Metrics sections, the CAASPP results in the ELA, math and science assessments show that many of our lowest performing students are the English learners, low-income and foster youth student groups when compared to the All student group. To address this issue, professional development for our teachers and staff will be essential to the progress of our English Learners, low-income and foster youth students. Trainings, conferences, workshops, and professional learning communities provide information for our capacity to address our English learner students' academic and social-emotional needs. We have seen a positive impact on our At-Promise students with additional staff training, such as trauma informed practices. We anticipate that with the increase in professional collaboration and learning, that state assessment results for our English learners, low-income and foster youth will also increase. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on students with CAASPP scores.
			$35,000.00	Yes

| 2.3 | Technology Access & Support | All English Learners, LTELs, low-income, and foster youth students will have access to effective technology platforms and support programs. This is an ongoing effort to help them to access their curriculum and instructional support. We will do the following:
• Upon enrollment provide every student with a computer.
• Provide students and teachers with tech support to ensure access to curriculum and instruction.

All English learners, low-income and foster youth students will have 100% access to the curriculum and instructional supports. We know this involves access to effective technology platforms and support programs. This is an ongoing effort in helping them to access their curriculum and instructional supports. We have seen success with teachers and staff continually supporting students' access to technology, and we will continue to provide training and materials to close any gaps. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on our students, by sustaining 100% access to their educational program. | $616,896.00 | Yes |
| 2.4 | Support for Standards-based Curriculum and Instruction | All English Learners, LTELs, low-income, and foster youth students will have access to high-quality standards-aligned curriculum and instruction that is continually improving. We will do the following:
· Participate in local curriculum review.
• Engage in dialogue in collaborative groups.
• Provide input on aligning standards to instructional practices.
• Analyze data results to develop and improve practices and processes.

All English learners, low-income and foster youth students will have access to high quality standards aligned curriculum and instruction that is continually improving. The implementation score for our standards- based curriculum is based on the CDE Standards Implementation Rubric. To address this, regional and site personnel will continue to collaborate and develop a high quality, customized curriculum, and provide coaching to support implementation for the unique needs of our student groups. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on our educational program resulting in a score of 5.0 on | $1,167,847.00 | Yes |

		the CDE rubric.		
2.5	Educational materials for an effective program	All students will have access to all materials to participate fully in enrolled courses. An effective education program relies on quality materials for all subject areas. We continue to purchase state adopted texts and update supplemental materials regularly, so that they meet our students' academic needs.	$8,505,386.00	No
2.6	Safe and Secure Facilities	We provide learning facilities for our students that are safe and secure. We monitor our sites each year, using the Facility Inspection Tool (FIT).	$4,699,468.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Increase Student Retention: This is a maintenance goal for student retention. It is designed to continue the success we have had with addressing student disengagement from their schooling and supporting their decision to either rematriculate or graduate through our program. We have safe and welcoming facilities, with a positive school climate, which effectively encourages students to remain engaged in their schooling experience.	Maintenance of Progress Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

We measure our core program through the high rate of retention, graduation and rematriculating back in school. Our mission is to successfully help students make the turn away from dropping out of school. We have specially trained staff and teachers in trauma informed practices and they know how to effectively address student retention. In consultation with students, families, and staff, we will continue to provide a collaborative educational environment for the success of our students.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Student Retention	All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve their retention. We will do the following: • Our student retention support personnel will engage in active outreach. • Student retention services will be trained. • Provide additional services that support retention. We serve English learners, low-income and foster youth with high mobility, who are typically behind in credits and have been out of school for about a semester or more. We have seen success in the retention rate for our student population. Ensuring that our English learners, low-income and foster youth students are attending and remaining in school is critical to meeting their needs. To address this, we have trained personnel who provide outreach and monitoring of students so that their attendance is regular. We also have comprehensive incentive programs. We will continue these practices, for our English learners, low-income and foster youth, because our data shows that we have been successful. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the retention rate of our students, and that we will stay above 80% each year.	$513,506.00	Yes
3.2	Social and Emotional Supports	All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve the success rate. We will do the following: • Our SEL programs are offered as necessary. • Additional counseling, support personnel, and professional development. • Providing additional services that support student success such as yoga, dog therapy at Learning Centers, and SEL courses. Our English learners, low-income and foster youth student population were negatively impacted during the pandemic. Many sustained social and emotional trauma, which impacted our Success Rate, which measures graduation, retention and rematriculation. We know that the success of our program is connected to student social-emotional health. To address this	$905,322.00	Yes

		issue, we have trauma-informed practices have helped address many of the social-emotional needs of our English learners, low-income and foster youth students. Programs such as TREC, HOPE, counseling, support personnel, social workers, professional development, special program such as yoga, have a positive impact on our students. We will continue to provide and improve on these actions and services, because we have witnessed success in our English learners, low-income and foster youth students when their social-emotional needs are carefully considered. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the Success Rate of our program, and that we will stay above 80% each year.		
3.3	Access to Transportation	All English Learners, LTELs, low-income, and foster youth students will be supported with transportation services to improve their attendance. We will do the following: • Provide metro or bus passes to facilitate their access to public transportation. • Provide additional transportation services that support attendance in other areas. Our English learners, low-income and foster youth students are frequently without access to transportation to school or other related programs. It is critical that they have good attendance in order to learn. To address this issue, we provide a variety of transportation options from metro passes, bus services, vans, and Hop, Skip, Drive. We will continue to provide this additional service for students, because we have seen it improve their access to school and programs. These actions will have a positive impact on the attendance rates of our English learners, low-income and foster youth students. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the average attendance rate and that we will stay above 85% each year.	$26,951.00	Yes

| 3.4 | Access to Nutrition | All English Learners, LTELs, low-income, and foster youth students will be supported with actions and services to improve their completer rate. We will do the following:
• Ensure that students have access to food on site.
• Provide additional services that support nutrition.

Food scarcity for our highly mobile English learners, low-income and foster youth students is a serious concern. We intend to do everything a school can do, including providing nutrition for all. We think this will help mitigate the drop-out rate, which is the non-completer rate for our independent study program. To address this, we will ensure that students have access to quality nutrition at the school or even delivered if necessary. Students cannot learn well when they are hungry, so we will continue to provide food services and/or other means for them to receive sustenance. These actions will decrease non-completer rates for our English learners, low-income and foster youth student population. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect that these actions will have a positive impact on the average non-completer rate, which will stay below 10% each year. | $85,000.00 | Yes |
| 3.5 | Title 1 – Helping Homeless | Our homeless students need additional support with basic necessities such as hygiene items, transportation and food, as well as social-emotional needs like feeling a part of the school community. | $500.00 | No |

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Increase Educational Partner Engagement: This is a maintenance goal for increasing educational partner engagement. We believe in parent participation along with their student's academic progress and we believe in parents should be encouraged to participate in meaningful ways to promote positive school outcomes.	Maintenance of Progress Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Involving parents in their student's orientation, awards, school activities, survey's and parent advisory, has a positive impact on the student's school experience. With consultation of our educational partners, we made this goal a maintenance of progress goal. There was a down turn in the school data for this goal, stemming from the pandemic, however, we expect it to resume full strength in a few years.

Measuring and Reporting Results

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Community/Parent Liaison and Meaningful School Activities	All parents of English learners, LTELs, low-income, and foster youth students will have access to meaningful parent activities and events at school. We will do the following: • Community liaison who does outreach. • Provide meaningful parent activities • Promote events and activities for parents to participate in at school. The parents of English Llarners, low-income and foster youth students are some of the least involved educational partners. Parent and educational partner engagement is an essential component to effective schooling for our English learners, low-income and foster youth students. We know that parents, guardians, and their families have a difficult time engaging with meaningful school activities. We will continue to provide a community and/or parent liaison who does outreach and promotes the school as a welcoming place for everyone. We will continue to provide this action, because we know that parent engagement is important and helpful in promoting the value of education in the family. We expect that these actions will increase involvement of the parents of English learners, low-income and foster youth. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our participation counts to be above school enrollment each year.	$508,604.00	Yes
4.2	Translation and Outreach Services	All English Learners, LTELs, low-income and foster youth students, and parents will be supported with actions and services to improve their translation needs. We will do the following: • Our translation services are capable of translating for multiple languages in writing. • Oral translation services are also provided at school events. • Provide additional translation and outreach services as necessary. Many of our English learners and low-income students speak a language other than English. Our English learners, low-income and foster youth students require effective communication and outreach about the educational programs and opportunities at the site. Good communication improves a sense of connection. Translations in student's primary	$195,000.00	Yes

		languages is critical for two-way communication efforts. Additionally, outreach and communication services are critical to school programs. We will continue to support this access to the school events and efforts through translating materials. We expect that these actions will sustain student's sense of connection for our English learners, low-income and foster youth student groups. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect our students to report that over 95% feel connected to school each year.		
4.3	Educational Partner Engagement	Educational partner engagement is essential to a positive school experience and outcomes, especially for our English learners, LTELs, low-income, and foster youth. We will do the following: • Provide meaningful educational partner engagement actives. • Provide two-way communication opportunities. • Provide additional services that support virtual communication and materials as necessary. Our English learners, low-income and foster youth students and families often struggle with beings involved in meaningful school activities. Results from our school survey show that our parents report that 84% feel encouraged to participate. We currently have parents participating in Parent Advisory and English Learner Advisory groups. Sustaining educational partner engagement requires expenses for such things as communications, outreach, materials, activities and transportation. We will continue this action, because we have witnessed the positive impact on schools when barriers to access are removed for our English learners, low-income and foster youth students. However, because we expect that all students showing credit deficiency will benefit, this action is provided on an LEA-wide basis. We expect that our parents will report that over 85% feel encouraged to participate each year, based on the school survey.	$10,000.00	Yes
4.4	Title 1 - Parent Engagement	Federal funds are directed at meaningful and engaging parent events, such as the Annual Title 1 meeting. These events have expenditures to support the activities, such as transportation, food, and other meeting materials.	$500.00	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.2	**Action:** All academic interventions and program materials **Need:** Students who come to us are typically about 5-grade levels or more below in their academics. Based on their NWEA scores we provide a personalized learning environment and	We are increasing our capacity to provide interventions in ELA and Mathematics through additional personnel and training in English Intensive Algebra Intensive and participation in a twice-annual schedule of benchmark assessments that will help identify students in need of academic intervention. This will serve the identified needs of our lowest-performing student groups.	We will closely monitor progress on our Math and Reading interventions programs. The following metrics are applicable: (NWEA ELA all students, EL, low-income, Hispanic,

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	interventions targeted to meet their academic gaps. As shown in the metrics section above, our English learners, students with disabilities, and socioeconomically disadvantaged are far below grade level. Additionally, to address the requirements for Differentiated Assistance, we examined the needs of our student groups in the red on the CA Dashboard, which were our English learners, African American, Hispanic, students with disabilities, and socioeconomically disadvantaged students in ELA. Our Hispanic, White, English learners, students with disabilities, and socioeconomically disadvantaged students were red in Mathematics. We found that our student groups in the red, for ELA and Math, were also in the low-income student group. (Metrics are reported in Goal #2). Teacher and parent feedback indicated that they support the importance of the intervention programs to increase students' English and math skills. **Scope:** Schoolwide	We will provide additional professional development for teachers, paraprofessionals, and tutors, focused on the implementation of intervention programs. Training to include new strategies and pedagogies proven to increase student achievement. Develop and implement intervention programs for students who require additional support. These programs may involve one-on-one tutoring, small group instruction, or specialized resources, such as English Intensive, and Algebra Intensive, and implementing a twice-annual schedule of benchmark assessments that will help identify students in need of academic intervention. We also have adopted a twice-annual NWEA test schedule starting in the 2024-2025 school year to increase student participation in benchmark assessments. Teachers, tutors, and paraprofessionals will review the results to identify students in need of additional academic support and targeted intervention. Our Online Learning Platform will provide individual lessons to students and is facilitated by the teacher. Paraprofessionals and tutors will also be trained to support these intervention programs and Online lessons. This action is ongoing throughout the school year. We expect that these actions will be effective at increasing students' mathematics and reading assessments. However, because we expect that all students with low proficiency will benefit, this action is provided on an LEA-wide basis.	African American, students with disabilities) (NWEA ELA all students, EL, low-income, Hispanic, White, students with disabilities) CA Dashboard Academic Indicator results for ELA and Math We will also consider input from the parents of participating students to enhance the quality of the programs provided.
1.3	**Action:** Tutoring and supports for students	We are implementing intensive tutoring with increased participation and access to virtual and	We will closely monitor progress on our credit

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Need: To address the requirements for Comprehensive Support and Improvement (CSI), we examined the needs of our student groups in the red on the CA Dashboard for their Graduation Rate. These were our all-student group, English learners, African American, Hispanic, foster youth, homeless, White, and students with disabilities. We noticed that these students were also in the socioeconomically disadvantaged group, which was in the red. Additionally, students who enroll with us are typically about 30 or more credits behind in school. Teachers, students, and parents provided feedback indicating that they support the high-value tutors bring to the program. **Scope:** Schoolwide	in-person tutors. A high-quality tutor and student relationship with help increase participation. This will help them complete their assignments and increase the rate at which they finish their courses. Tutors support these students both virtually and in person and are available during school hours. They scaffold skills that need to be reinforced through additional practice. Tutors deliver a critical level of support that we have seen be successful in helping address academic gaps effectively and improve student progress toward credit recovery and graduation. This action is ongoing throughout the school year. We expect that these actions will be effective at increasing students' credit completion rate which leads to improved graduation rates. However, because we expect that all students with low proficiency will benefit, this action is provided on an LEA-wide basis.	completion rates for all of our student groups, especially for the following student groups in the red: all-student group, English learners, African American, Hispanic, foster youth, homeless, White, and students with disabilities. socioeconomically disadvantaged groups, We expect them to increase each year. We will also consider input from the parents of participating students to enhance the quality of the program provided.
1.4	**Action:** Counseling students towards graduation and materials **Need:** Historically, some of our lowest graduation rates are among the English learners, LTEL low-income, and foster youth student groups, who are also students with disabilities, when compared to the All-student group who are at 84.3% for the DASS graduation rate. We	To address obstacles to graduation, we will provide additional training and support to identify students' socio-emotional needs, incorporate counseling services to support students' well-being and create a positive learning environment. Counselors will be principally directed to promote high expectations and provide guidance toward graduation. Counselors will promote a positive working relationship and will connect frequently or as needed with high-needs students, to help meet social-emotional needs using programs such as	We will closely monitor progress on our DASS Graduation rates for all of our student groups, especially English learners, LTEL, low-income, foster youth and students with disabilities. We expect them to increase each year.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	examined the needs of our students who are behind in their coursework and credits. They are behind for a variety of reasons and many obstacles need to be addressed before they graduate successfully. Teachers, students, and parents provided feedback indicating that they support the high-value counselors bring to their students. **Scope:** Schoolwide	our TREC model which promotes intrinsic motivation and guides students to achieve their graduation goals. Counselors are a critical factor in helping students graduate. Counselors will provide additional counseling and social-emotional support for English Learners, LTEL, low-income and foster youth students, and students with disabilities. Counseling occurs weekly for our high-needs students. There are also multiple ways for counselors to connect with students such as one-on-one, group meetings, and home visits. Counselors are continually in contact with teachers and parents to help monitor the progress of students. During school breaks, our counselors are available 24/7 for intervention and support of students who are in need of acute support. We provide this support during Spring, Fall, Thanksgiving, and Christmas vacations. We expect to continue providing counselors, who help address obstacles to graduation that students with disabilities who are English learners, low-income and foster youth students have; however, because we expect that all students could benefit, action is provided on an LEA-wide basis.	We will also consider input from the parents of participating students to enhance the quality of the program provided.
1.5	**Action:** Student activities that increase learning efforts **Need:** As demonstrated in the Identified Needs and Metrics sections, English Learners, low-income, and foster youth students are often underperforming in their capacity for credit	To address this need, we will improve the relationships between staff and students to increase school participation and engagement. The school will acknowledge student achievement and celebrate student successes to get buy-in. The school will also boost student morale by increasing student-led events and activities creating a positive learning environment. Students	We will closely monitor progress on our credit completion rates for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	completion. The expected average is 4.0 for all students. They often exhibit low motivation to complete their assignments. Students, teachers, and parents provided feedback indicating that they support the value of meaningful student activities and incentives. **Scope:** Schoolwide	are recognized for their efforts in a variety of ways that are meaningful to them. This includes but is not limited to celebrations, field trips and enrichment experiences. Our students participate in a comprehensive incentive and recognition system, on an ongoing basis, that helps support their scholastic efforts. We have witnessed how these actions can inspire students to continue to be productive and strive to accelerate their learning. We expect that these actions will have a positive impact on work completion rates. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.	We anticipate from these actions and support services to see an increase up to 4 credits per learning period. We will also consider input from students and parents to enhance the quality of the program provided.
2.1	**Action:** Career-readiness, Career Technology Education and college-readiness for English learners, low-income and foster youth students **Need:** Some of our lowest career and college-readiness rates are among the English learners, low-income, and foster youth student groups who are all below the state average of 18.7% for graduates completing a CTE pathway. They were also below the state average of 44.5% completing A-G courses and below 11.1% in the A-G + CTE pathway completion rate. Our English Learners, low-income and foster youth students need to be prepared to pursue a career or attend a college.	To address this need, our counselors will work closely with teachers to ensure all students complete a college and/or career coursework. Counselors connect students with WIOA to receive job training and placement. Additionally, field trips will be planned for career exploration. We highly encourage all students to participate in dual enrollment and CTE pathways prior to their 12th-grade year. Student participation counts are anticipated to increase in our Child Development, EMT, Construction and Career Exploration Pathways. The school will also increase student and family involvement in College and Career days and connect students with WIOA to receive job training and placement. Additional field trips will be planned for career exploration. When our students enroll, they soon start to engage in career inventory, exploration, and	We will closely monitor progress on our CTE completion rates and our A-G completion rates for all of our student groups, especially English learners, LTEL, low-income, foster youth, and students with disabilities. We will also consider input from the parents, students, and teachers.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Students, teachers, and parents provided feedback indicating that they support the value of meaningful student activities and incentives. **Scope:** Schoolwide	professional skills, to align their interests into either CTE or other secondary education. We take into consideration local employment opportunities and student interests to help guide students into valuable coursework. Support personnel, staff, partnerships, and materials are essential to tailor and implement the curriculum for students. We have witnessed our students be successful in these programs. We expect that these actions will have a positive impact on our college and career readiness rates for our English learners, LTEL, low-income, foster youth, and students with disabilities Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.	
2.2	**Action:** Professional development addressing English learners, low-income and foster youth students **Need:** As demonstrated in the Identified Needs and Metrics sections, the CAASPP results in the ELA, math, and science assessments show that many of our lowest performing students are English learners, low-income, and foster youth student groups when compared to the All student group. Teachers and parents provided feedback indicating that they support the value of professional development to increase effectiveness.	To address this need, our staff will be expected to participate in professional development that supports EL, LTEL, LI, and FY by attending designated local or regional trainings, workshops/seminars. Upon completion of the PD, staff will report training outcomes and plan to implement instructional methodologies learned/gained to increase student achievement and productivity. Best practices will also be shared with colleagues to support a school-wide effort. Throughout the school year, our teachers regularly participate in trainings, conferences, workshops, and professional learning communities to provide information for our capacity to address our students' academic and social-emotional needs. We will train on our EL Tool Kit which includes effect strategies such as SDAIE. We have seen a positive impact on our At-Promise students with	We will closely monitor progress on The CAASPP results, especially for English learners, LTEL, low-income, foster youth, and students with disabilities. We expect that these actions will have a positive impact on students with CAASPP scores. We will also consider input from the parents, students, and teachers.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: Schoolwide	additional staff training, such as trauma-informed practices. We anticipate that with the increase in professional collaboration and learning will increase our state assessment results for our English learners, LTEL, low-income, foster youth, and students with disabilities will also increase. However, because we expect that all students showing low proficiency will benefit, this action is provided on an LEA-wide basis.	
2.3	**Action:** Technology Access & Support **Need:** All English Learners, LTEL, low-income, and foster youth students will have 100% access to the curriculum and instructional support. We know that access to effective technology platforms and support programs is critical to student access to curriculum and instruction. Teachers and parents provided feedback indicating that they support the value of implementing a standards-based curriculum. **Scope:** Schoolwide	We have seen success with teachers and staff continually supporting students' access to technology, and we will continue to provide training and materials to close any gaps. Chromebook computers are provided for students who lack sufficient technology access from the home. This action starts at student orientation and is ongoing throughout the school year. We expect that these actions will have a positive impact on our students. There is an ongoing effort to ensure that our English learners, LTEL, low-income, and foster youth students have access to technology. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.	We will monitor and sustain 100% of our students' access to technology for their educational program. We will also consider input from the parents, students and teachers
2.4	**Action:** Support for Standards-based Curriculum and Instruction	To address this need, our staff will continue to participate in local curriculum review, engage in dialogue, and provide input on aligning standards	We will closely monitor progress on our implementation of

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Need: All English Learners, LTEL, low-income, and foster youth students will have access to high-quality standards-aligned curriculum and instruction that is continually improving. The implementation score for our standards-based curriculum is 4.16, based on the CDE Standards Implementation Rubric. Teachers and parents provided feedback indicating that they support the value of implementing a standards-based curriculum. **Scope:** Schoolwide	to instructional practices. Professional Development will guide the implementation of a standards-based curriculum. Support will be provided by curriculum specialists to help analyze data results to develop an improved process to monitor the effectiveness of our curriculum and instructional practices. Throughout the school year, our personnel will continue to collaborate and develop a high-quality, customized curriculum, and provide coaching to support implementation for the unique needs of our student groups. We expect that these actions will have a positive impact on our educational program resulting in a higher score each year. An improved program supports our English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.	standards-based curriculum score from the CDE Standards Implementation Rubric. We expect improvement on the implementation score each year. We will also consider input from the parents, students, and teachers.
3.1	**Action:** Student Retention **Need:** We serve English Learners, LTELs, low-income and foster youth, with high mobility, who are typically behind in credits and have been out of school for about a semester or more. We have seen success in the retention rate for our student population, which is currently at 92.97%.	Ensuring that our English Learners, low-income and foster youth students are attending and remaining in school is critical to meeting their needs. To address this, we have trained personnel who provide outreach and monitoring of students so that their attendance is regular. We also have comprehensive incentive programs. We will continue these practices, for our English Learners, low-income and foster youth. These actions occur throughout the school year. We expect that these actions will have a positive impact on our educational program resulting in a higher score each year.	We expect that these actions will have a positive impact on the Retention Rate of our program and that we will stay above 80% each year for all of our English Learners, LTELs, low-income, and foster youths. We will also consider input from the parents, students, and teachers.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Teachers and parents provided feedback indicating that they support the value of supporting student retention. **Scope:** Schoolwide	An improved program supports our English learners, LTEL, low-income, foster youth, and students with disabilities. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.	
3.2	**Action:** Social and Emotional Supports **Need:** We serve English Learners, LTELs, low-income, and foster youth students, many of whom have sustained social and emotional trauma. How we address this impacts our Success Rate, which measures graduation, retention and rematriculation. The Success Rate is currently 96.21%. Teachers and parents provided feedback indicating that they support the value of student success. **Scope:** Schoolwide	We know that the success of our program is connected to student social-emotional health. To address this issue, we have trauma-informed practices that have helped address many of the social-emotional needs of our English learners, LTELs, low-income, and foster youth students. Programs such as our SEL, counseling, support personnel, social workers, professional development, and special programs such as yoga and dog therapy, have a positive impact on our students. This action is provided on an ongoing basis, throughout the school year. Staff and teachers are all diligent in watching for signs of trauma and are quick to provide support. We will continue to provide and improve on these actions and services because we have witnessed success in our English Learners, low-income and foster youth students when their social-emotional needs are carefully considered. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.	We expect that these actions will have a positive impact on the Success Rate of our program and that we will stay above 80% each year for all of our English Learners, LTELs, low-income, and foster youths. We will also consider input from the parents, students, and teachers.
3.3	**Action:** Access to Transportation	To address this issue, we provide a variety of transportation options from metro passes, bus	We expect that these actions will have a positive

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Need: We serve English Learners, LTELs, low-income, and foster youth students who are frequently without access to transportation to school or other related programs. It is critical that they have good attendance in order to learn. The average attendance rate is currently 85.27%. Teachers and parents provided feedback indicating that they support the value of supporting student retention. **Scope:** Schoolwide	services, and such. Students demonstrating exceptional and acute and short-term transportation needs have access to Hope-Skip-Drive, a service that will pick students up at home and transport them to school. We will continue to provide this additional service for students because we have seen it improve their access to school and programs. These actions are provided throughout the school year and teachers make sure students have access to transportation. We know that staff and students working together daily, will have a positive impact on the attendance rates of our English learners, LTELs, low-income, and foster youth students. English learners, LTEL, low-income, foster youth, and students with disabilities are served by this action. Furthermore, because we expect that all students could benefit from this action, it is provided on a schoolwide basis.	impact on the average attendance rate, and we will stay above 85% each year for all of our English Learners, LTELs, low-income, and foster youths. We will also consider input from the parents, students, and teachers.
3.4	**Action:** Access to Nutrition **Need:** Food scarcity for our highly mobile English Learners, LTELs, low-income, and foster youth students is a serious concern. We intended to do everything a school can do, including providing nutrition for all. We think this will help mitigate the drop-out rate, which is the non-completer rate for our independent study program. The non-completer rate is currently 3.66%.	To address this, we will ensure that students have access to quality nutrition at the school or even delivered if necessary. Students cannot learn well when they are hungry, so we will continue to provide food services and/or other means for them to receive sustenance. Throughout the school day, teachers and staff are diligent about the nutritional needs of students. They are quick to provide food daily. Students also ask for food as needed. These actions will decrease non-completer rates for our English Learners, LTEL, low-income, and	We expect that these actions will have a positive impact on the average non-completer rate, which will stay below 10% for all of our students. We will also consider input from the parents, students, and teachers.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Teachers and parents provided feedback indicating that they support the value of supporting student retention. **Scope:** Schoolwide	foster youth student population. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.	
4.1	**Action:** Community/Parent Liaison and Meaningful School Activities **Need:** Feedback from teachers, SRS, administrators, and counselors, state that the parents of English Learners, LTELs, low-income and foster youth students are less involved in their student's educational activities. According to our educational partners, parents are an essential component to effective schooling and the overall academic success of these students. As shown above, in the metrics section, we expect the participation counts to be above enrollment. Teachers and parents provided feedback indicating that they support the value of implementing parent engagement activities. **Scope:** Schoolwide	To ensure our continued success, we hope to see an increase in parent participation. We will continue to provide a community liaison who does outreach and promotes the school as a welcoming place for EL, FY, and LI through organizing on-site activities and events. We also employ a Parent Engagement Liaison whose primary role is to connect students and families with community resources, host resource fairs, and assist the community liaison and counselors with supporting our students. We believe that increasing parent/family engagement, as well as creating and cultivating connections in the community, will have a positive impact on students. This action is on an ongoing basis, throughout the school year. The support of the community liaison is designed to meet the needs most associated with increased involvement of the parents of English Learners, low-income and foster youth. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.	We will closely monitor progress on our parent participation count so that they are above the enrollment amount. We will also consider input from the parents, students, and teachers.
4.2	**Action:** Translation and Outreach Services	Eliminating language barriers for families of our English learners is necessary to ensure that	We expect that these actions will have a positive

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Need: According to our educational partners, parent and student connectedness is an essential component to effective schooling and the overall academic success of the identified students. We currently have 68 participants in our PAC/ELAC meetings this year. Teachers and parents provided feedback indicating that they support the value of supporting student retention. **Scope:** Schoolwide	students and families are aware of school events and activities. We will continue to increase awareness of the school events and activities through translating materials and/or outreach services. The community liaison in coordination with our staff will utilize these services to increase communication with our EL, FY and LI parents using written, verbal and virtual communications. This action is provided throughout the school year, as needed, based on identified needs. Translation services are available quickly for written materials and oral services as necessary. This action is designed to meet the needs most associated with increased communication and involvement of the parents of English Learners, low-income and foster youth. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.	increase on participation in ELAC and PAC meetings. This is good for all of our English Learners, LTELs, low-income and foster youth. We will also consider input from the parents, students, and teachers.
4.3	**Action:** Educational Partner Engagement **Need:** Feedback from teachers, administrators, and counselors, state that the parents of English Learners, LTELs, low-income, and foster youth students are less involved in their student's educational activities. Results from our school survey show that our parents report that 84% feel encouraged to participate. Parents and teachers provided feedback indicating that they support the value of educational partners.	According to our educational partners, parent involvement is essential to effective schooling and the overall academic success of these students. Sustaining educational partner engagement requires expenses for such things as communications, outreach, materials, activities and transportation. We believe in the importance of parents feeling encouraged to participate. We expect that the community liaison in coordination with our staff will utilize these resources to increase positive two-way communication with our EL, FY, and LI parents using written, verbal and virtual communications. This action is done on an on-going-basis throughout the school year.	We expect that these actions will have a positive impact on the school survey results. We expect parents will report that over 85% feel encouraged to participate each year, based on the school survey. We will also consider input from the parents, students, and teachers.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: Schoolwide	We will continue this action, because we have witnessed the positive impact on schools when barriers to access are removed for our English learners, LTELs, low-income, and foster youth students. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis.	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.1	**Action:** Long-term English Learns (LTEL) and English Learners support staff, interventions, and materials **Need:** According to the CA Dashboard, our English Learner student group was in the yellow on the English Learners Performance Indicator (ELPI). We also examined our reclassification rate trend and did a needs assessment on our LTELs. Teacher and parent feedback indicated that they support the importance of the EL program and support for increasing students' skills.	We will implement a high-quality English Language acquisition program and add additional tutoring and EL paraprofessional staff to support students in their ELD SGI courses and with Read180/System 44 to address the identified needs. We will address this need by providing an EL Paraprofessional or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Students will receive individualized support based on their specific English proficiency level. We use an in collaboration with students and families. Implementing our Designated and Integrated English language development (ELD) is an integral	We will closely monitor progress on this action which is designed to meet the needs most associated with English learner students. Using Integrated and designated unit tests on appropriate ELD & ELA standard, and using real-time tracking, student language proficiency, and academic progress will be monitored and we expect their ELPI results, as well as the reclassification rate, to increase as a result of the personalized academic

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Scope: Limited to Unduplicated Student Group(s)	part of our comprehensive program for every English learner to meet the linguistic and academic goals at their grade level as identified by their level of proficiency. ELs participate in Newcomer programs, Structured English Immersion, or English Language Mainstream, based on their capacity to successfully advance in their language acquisition and their academics. Support staff will provide specific language instruction through vocabulary and language development to support literacy skills and language acquisition. This will be done throughout the school year. We expect that these actions, which are designed to address our EL and LTEL students' needs, will be effective at increasing our students' performance on the ELPAC and improving their reclassification rate. This action is provided on a limited basis.	support they will receive from qualified personnel. We will also consider input from the parents of participating students to enhance the quality of the program provided.
1.8	**Action:** Professional Development for English Learners **Need:** According to the CA Dashboard, our English Learner student group was in the yellow on the English Learners Performance Indicator (ELPI). We also examined our reclassification rate trend and did a needs assessment on our LTELs. Parent and teacher feedback indicated that they support the importance of professional development to support English learners and LTELs.	To address this need, we will provide professional development opportunities for teachers to enhance their skills in addressing diverse learning needs. This may involve workshops, seminars, or collaborative learning communities focused on effective instructional practices. Our English learners will be served by trained EL Paraprofessionals or other trained bilingual support personnel. This includes, but is not limited to EL tutors, ELD Leads, support staff, ELD Small Group Instruction, and supplementary materials for the ELD program as needed. Trainings could include, but are not limited to developing an EL Tool Kit, implementing effective EL strategies using SIOP (Sheltered Instruction Observational Protocol), and scaffolding strategies	We will monitor progress on this action as it's designed to meet the needs most associated with English learner students. Using real-time tracking, student language proficiency and academic progress will be monitored and we expect that the CA Dashboard ELPI, as well as the reclassification rate, will increase. We will also consider input from the parents of

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Scope: Limited to Unduplicated Student Group(s)	such as modeling, building schema, contextualization, and others. Additionally, workshops, conferences and professional learning communities provide information that will build the capacity of faculty and staff to increase student performance. Professional development happens throughout the year at least three times on various topics. There is follow-up with staff who are trained using the professional learning community's model. There are opportunities for staff to engage in their effectiveness with each other and share best practices. We expect that our English Learners, including long-term English Learners' (LTEL), ELPAC scores, ELPI, as well as the reclassification rate, will increase as a result of the personalized academic support and attention they will receive from qualified personnel. This action is provided on a limited basis.	participating students to enhance the quality of the program provided.

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning*,* particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [*EC*] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

  o Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).

  o Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).

    ▪ **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC*

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- o Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

- o Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.

- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;

- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or

- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners
Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning*,* particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060(g) (California Legislative Information)](#) and [52066(g) (California Legislative Information)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

  A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5(d) (California Legislative Information)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

  A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 (California Legislative Information)](#);

  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 (California Legislative Information)](#); and

- For charter schools, see [Education Code Section 47606.5 (California Legislative Information)](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:

  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.

- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The LCFF State Priorities Summary provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.

- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.

- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.

- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding
Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.

- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.

  o When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,

  o The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.

- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.

- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

- In addition to this information, the LEA must also identify:

  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).

- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) (California Legislative Information) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.

- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.

- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.
Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.

  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).

  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.

  - Indicate the school year to which the baseline data applies.

  - The baseline data must remain unchanged throughout the three-year LCAP.

    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.

  o Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.

  o Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

  o Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.

  o Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.

  o Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.

  - Include a discussion of relevant challenges and successes experienced with the implementation process.

  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. "Effectiveness" means the degree to which the actions were successful in producing the target result and "ineffectiveness" means that the actions did not produce any significant or targeted result.

    o In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.

    o When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

    o Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

    o As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

        ▪ The reasons for the ineffectiveness, and

        ▪ How changes to the action will result in a new or strengthened approach.

Actions:
Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

o For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

o As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

o These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.

   o **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:

   o Language acquisition programs, as defined in *EC* Section 306, provided to students, and

   o Professional development for teachers.

   o If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:

  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.

  - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements
An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.

  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)

- Table 3: Annual Update Table (for the current LCAP Year)

- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.

- **Action #**: Enter the action's number as indicated in the LCAP Goal.

- **Action Title**: Provide a title of the action.

- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.

- If "Yes" is entered into the Contributing column, then complete the following columns:

  - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- o **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

- o **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  - o **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

  - o **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

  For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

    o Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table
- **4. Total Planned Contributing Expenditures (LCFF Funds)**

    o This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.

- **5. Total Planned Percentage of Improved Services**

    o This percentage is the total of the Planned Percentage of Improved Services column.

- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- o This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

  - o This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

  - o This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

  - o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

  - o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

  - o This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

  - o This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

  - o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**

  - o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

  - o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

    The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - o This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
