

Alta Vista Innovation High School

Meeting April 24, 2025 @ 6:00 pm

Location: 12100 Palmdale Rd #B3, Adelanto, CA 92301

Meeting started: 5:54 p.m.

Welcome/Introductions: Ken (Principal) opens up with the welcome. We sincerely appreciate your attendance for being here today. We will get started shortly, we will be going over what ELAC is, LCAP update, and school events.

LCAP draft overview: [Colin Opseth](#)

- a. Grant updated
- b. LCAP: Every school has struggles and in the LCAP is where we address our struggles.
LCAP Updates/ School Dashboard: LCAP is a 150 page report to talk about how to support our students. The first page is the budget overview for parents. Alta Vista Innovation High is growing, and every year for 4 years our budget continues to grow. In the LCAP we have to talk about how we are going to spend the money. We have dual enrollment as an example. The budget overview for parents is really cool, because it shares what we are doing for your students. Alta Vista Innovation High School has about 52 million dollars in our budget with 13.5 million dollars was carved out for LCAP use.
 - i. Focus on community partners, increase graduation and make sub goals in order to make sure we improve in our school.
 - ii. Talks about how much money we spend, how much money we spend on technology and other services we provide.

we can give you a copy, which is also found on the student website. Our enrollment is going up, the expulsion rate is down. Our parents are super happy with how our school is doing.

Title 1 Updated- Colin Opseth

- Parents were informed that we are currently a Title 1 School. Explained how funds for Title 1 were used and applied to help students

Comprehensive School Improvement (CSI) - Colin Opseth

- Colin presented the CST grant and explained to parents about the expanded programs we have to offer their students.
- Colin presented on how we have improved our sites and provided instruction through the improvement of the sites.

Differentiated Assistance (DA) - Ken Larson

- Explained we are an Independent studies school and we provide different ways of students.
- Ken provided 2 examples of DA - Illustrated how students can work on packets in Google Classroom, Ementum and Community College classes.
